This guide is based on a Kansas Laws and Legal Opinions prepared by Darrin Devinney, Butler County Attorney, and a Township Study dated September 7, 2007 by the Kansas Advisory Council on Intergovernmental Relations. Butler County was the primary source for laws relating to township officials. KOMA and KORA information was obtained from the Kansas Attorney General.

Introduction & Purpose

Townships in Kansas are governed by an elected township board consisting of a Trustee, Treasurer and Clerk. These elected officials work in relative isolation without the assistance of administrative or legal staff. The townships may not have an office and may instead meet at a kitchen table. The townships have no functioning statewide association to look out for their interests or to provide education and training. But they are still expected to know and follow all the laws, rules, and regulations.

Citizens recognize the functions of the state, counties, and cities, but few citizens understand the functions of townships. Until I became Local Road Engineer at the Kansas Association of Counties, I was unaware of how little guidance there is for township officials. This guide was prepared to help township officials understand their duties and responsibilities. Townships in the 35 Kansas counties that have a County-Township road system have rural road maintenance responsibilities, and considerably more responsibilities and liability than in the other counties. Since I am a road person this guide concentrates on road issues but recognizes that the townships have other responsibilities.

This guide can be a help to township officials, but it is no substitute for legal and professional advice when dealing with specific issues.¹

Road Systems in Kansas

In Kansas there are three types of road systems for roads outside cities. Responsibility for maintaining township roads is based on the type of road system adopted by the county.

Non-county Unit Road System:

The Non-county Unit Road System is also called the County-Township system. In this system the County maintains the main roads, and the townships maintain the local roads. The county maintains all the bridges as well as those culverts with a waterway opening of 25 square feet or larger. Prior to 1917, the townships maintained all the roads, but since 1917 the Non-county Unit Road System is the road system unless the county has elected to use one of the other road systems. There are 35 counties in Kansas with this road system. Funding for the county roads is on a county-wide tax basis with all property in the county having the same mill levy for county roads and bridges. Townships are funded from a mill levy on property within the township, but townships do not collect property tax for property within a city.

County Unit Road System:

In the County Unit Road System the county is responsible for maintenance of all the public roads outside the cities. The townships have no road maintenance responsibilities. The County Unit Road System was authorized by state law in 1917, but it takes action by the county to take over the township roads. There are 67 counties in Kansas that have this road system. Funding for all the county roads is on a county-wide tax basis with all property in the county having the same mill levy for county roads and bridges. This results in a somewhat higher mill levy for city residents than the County-Township System as the city residents have to pay taxes for maintaining all the county roads, including the old township roads. This road system is authorized by KSA 68-515b.

General County Rural Highway System:

The General County Rural Highway System is similar to the County Unit Road System in that the county maintains all the public roads outside the cities, and the townships have no road maintenance responsibilities. In this system the county has to have two separate funds, one for the main county roads, and one fund for what were previously township roads. The General County Rural Highway System was authorized by state law in 1970. There are just three counties in Kansas with this road system. Funding for the county roads is on a county-wide tax basis with all property in the county having the same mill levy for county roads and bridges. Funding for former township roads are funded from a mill levy on property within the townships, but does not include property tax for property within a city. In this system city residents do not pay taxes for maintenance of the former township roads. The county has to keep track of expenses on their two-road systems, and must ensure that the correct amount is spent on county roads and township roads. This road system is authorized by KSA 68-591.

Road Maintenance Systems | By County

As of September 2012

Trends:

The map illustrates the type of road system in each county. The following table illustrates the trend in conversion of the County-Township System to another road system.

Year	County Unit	County Rural
1910s	2	
1920s	16	
1930s	7	
1940s	26	
1950s	5	
1960s	4	
1970s	7	1
1980s	0	1
1990s	0	
2000s	0	1

The last county that converted to a county unit road system was Coffey County in 1979. The Coffey County commission adopted a resolution to implement the county unit road system, and there was no protest petition. Osage County voters turned down a county unit petition in 2010. It appears that there is currently a reluctance to convert to a county unit system as this will increase the taxes for residents inside of cities.

Road Right-of-Way Issues

How Roads Opened

Rural roads were usually opened after local residents petitioned the county commission. The county commission appointed road viewers. The road viewers set a date and time to view the road, and notice was published in the paper and sent to adjacent land owners. At the designated time the road viewers and the county surveyor would view the area where the road was requested. The viewers made an opinion on whether the road would be of public utility and also determined the most practical route of the road. The county surveyor would stake the road location determined by the viewers. Adjacent land owners would submit claims for damages based on the location of the road, and the viewers would recommend the amount they thought was justified. The county surveyor made field notes of the road location and would later draw the location of the road in a road record book and perhaps place a copy in the road opening packet. The county commission would receive the report of the road viewers and order the road to be opened, or reject the petition. If the road was to be opened, the county would pay damages to the adjacent owners. The last action by the county commission in opening a road was to notify the township road overseer to open the road.

Road Easement and Uses

In Kansas the road right-of-way is an easement for a specific purpose, that of public road. The right-of-way is not county or township property, and there is not unlimited jurisdiction. The adjacent land owner actually owns the land and has certain rights. Counties and townships need to remember this limitation during their operations.

In legal terms the county holds the dominant estate and the adjacent land owner has the servient estate. In rural areas most deeds list something like “except the public road.” This exception is just calling out the road easement, and is not excepting the land under the road, so the land under the road easement always passes to the next land owner. This exception should not give the impression that the county owns the land. The land owner retains the mineral rights, and the county cannot drill a water well or an oil well on the right-of-way.

Adjacent Land Owner Uses

Since the county only has an easement on the road, officials must keep this in mind when dealing with adjacent land owners. The adjacent owners have the right to use the land in a manner that does not conflict with the road easement. An adjacent land owner can mow grass, bale hay, and cut and trim trees without permission from the county. He can also farm the right-of-way as long as the farming operation does not interfere with or damage the road and ditches. The land owner cannot damage any county or township property, nor do anything that obstructs the right-of-way or causes a safety issue.

Items of Commercial Value

A road easement does not give the county or township authority to allow private parties permission to take items that have commercial value from the right-of-way. The most

common items are firewood, ledge rock, hedge posts, wildflowers, and dirt. The county can give their permission to remove those items, but the private party must then contact the land owner to obtain final approval.

Many times when we clean a ditch we have excess dirt for disposal. Once dirt washes or blows onto the right-of-way that dirt is a waste product we need to get rid of as cheaply as possible. We can certainly use the dirt to build up a road or fill in a wash in a road ditch. Sometimes the dirt isn't suitable for road use and we dispose of it off site and dump the dirt on a neighbor's property. Many times a land owner will object to this as it appears that you are giving his dirt to someone else. There is no legal requirement that we go to extra expense to dispose of dirt on the adjacent land owner's property. If the land owner wants "his" dirt back, it is cheaper to roll the dirt back into the field or leave it piled at the back of the ditch, but we do not have to haul it to where he wants it piled.

Trees & Brush

Trees and brush are a constant maintenance issue in eastern Kansas. In run-off the road accidents over 30% of the fatalities are due to collision with a tree, so trees are a hazard to traffic and can be removed by the county. Since trees and brush need to be removed for safety there is no doubt the county has authority to do this kind of work at any time if it is necessary for safety or maintenance reasons. If there are trees on the right-of-way that have commercial value it seems the land owner should be given an opportunity to harvest the wood before the county removes the tree. Trees on the right of way line should not be removed or killed without permission from the land owner. These trees are partially off the right-of-way so are under joint jurisdiction of the county and the adjacent land owner, and it would be impossible to remove a tree without getting off of the public right-of-way. An exception for trees on the right-of-way line is provided by KSA 19-2612 for trees and hedges within 350 feet of an abrupt turn in the road or a railroad crossing. This statute allows the county commission to cut or remove trees or hedges to provide clear vision.

Moving Roads

If you have been in county or township work very long you have been asked to move a road to the correct location. The facts are usually the same; the requestor had his property surveyed and the surveyor found that the road was in the "wrong" location. The road always needs to be moved farther away from the person requesting the work.

The first impression is that a road should be in the right place, and putting the road in the right place is just the right thing to do. But then you start thinking about how this would be done. If you move the road over you make one owner happy, but what about the guy that you are going to be taking land from, and does he have a shotgun? This situation came up a long time ago and was settled by the Kansas Supreme Court in 1886, and the court said that not only do you not have to move the road, you cannot move the road. A township was doing road work and wanted to put the road in the correct location as shown on the county surveyor's field notes and plat. The court ruled the road location was established by the original survey and opening, and the county surveyor's field notes

and plat must yield to the actual location where the road was opened. The court did not allow the township to move the road.

Roads do not move much. Certainly paved roads can't move, but gravel and dirt roads could theoretically change locations based on maintenance practices. However, there are all kinds of restraints keeping roads from moving: culverts, bridges, fences, intersections, as well as the watchful eyes of adjacent land owners. Despite these safeguards, there will still be occasions when a surveyor— now 130 years after the road was surveyed and damages paid accordingly—will declare the road or the right-of-way fence is in the wrong place.

There are many reasons that a modern surveyor won't come to the same answer as the original surveyor. A monument may have been lost and reset in a slightly different location, modern equipment may provide a more accurate measurement, or there may have been some errors in the original survey and notes. But the point is there is a difference in the surveys, the road did not move. If there is a situation where the road has moved, there probably is an obligation to move the road to the proper location. An example of this might be where a farmer kept farming closer to the road, or perhaps a hedge had not been trimmed so the road moved away from the hedge row.

Opening roads that have not been travelled

In all areas of the state there are a few roads that have fallen into disuse, and are no longer travelled. Trees may have grown up in the right-of-way and blocked the road, culverts may have washed out, ruts may have enlarged to gullies, and so generally the road cannot be traveled with normal vehicles. Usually these were roads that were difficult to maintain anyway, and when a farmstead was abandoned, if the farmers had alternate access, the township just let the road return to nature. The road is still officially on the books as the road easement has not been vacated.

If a road hasn't been used in decades and a landowner requests that the county or township open the road, there is then a question about the county or township's responsibility to respond. Usually, everyone has access to their property, so opening the road is probably a convenience, not a necessity. One circumstance, however, where the road could become a necessity is if there was a landlocked tract that existed before the road became untraveled. If the landlocked tract was being farmed by an adjacent owner who used his property for access to the landlocked tract and the renter gave up farming the landlocked tract, a new renter may not have access. But in most situations opening the road is really a convenience and only benefits an adjacent owner. KSA 68-115 provides that on an unopened township road, the adjacent land owner that wants the road opened is required to improve the road to township standards.

Minimum-Maintenance Roads

Almost all counties and townships are struggling to maintain their roads properly. There are limited funds available, so we have to set priorities. Rightfully the higher priorities need to be the roads that have higher traffic volumes. But what results is the lower-traffic roads get less attention and they begin to deteriorate. Grass starts growing in the road,

ditches fill with silt, culverts may plug up or wash out, and in eastern Kansas the trees start crowding the road. What used to be a road starts looking more like a field road or a trail. These are not the type of roads that an unfamiliar or inattentive driver should travel. It would be nice to vacate the road, but in most cases the road cannot be vacated as it provides access to farm fields. We can't afford to keep the road in condition for travel by the general public in all weather conditions. This scenario has been going on for at least 30 years, maybe longer. With the high cost of road maintenance and the static or shrinking tax base, the trend is for more rapid deterioration of our less travelled roads.

The state legislature considered this issue in 1981 and allowed for the declaration of minimum-maintenance roads for roads that are used only occasionally or are used by only a few individuals. If the county commission declares the road a minimum-maintenance road and installs a specified warning sign then there is an exemption for the county and/or township under the tort claims act. So the minimum-maintenance road designation allows us to leave a road open, at a lower-grade condition, and not be as concerned about the liability issues.

The process of declaring a minimum-maintenance road is not complicated.

- 1) The county commission determines which roads should be minimum-maintenance roads. It then adopts a resolution describing the roads and transmits the resolution to the county planning commission.
- 2) Notice of a public hearing is published once in the official county newspaper.
- 3) After the public hearing the county commission decides which of the designated roads should be declared minimum maintenance.
- 4) Not later than 10 days after the declaration a warning sign is installed that says "Minimum-Maintenance Road Travel at Your Own Risk."

A person might wonder what roads should be declared minimum maintenance. To my knowledge there is no legal definition of a minimum-maintenance road except what is referred to in the enabling law: "used only occasionally or is used only by a few individuals." A minimum-maintenance road is not adequate for uses that require daily access such as a school bus route, mail route, or for a home or business. In most instances the purpose of the minimum-maintenance road is to provide seasonal agricultural access.

The question routinely arises concerning adequate maintenance of a minimum-maintenance road. The answer is not in the law, and has not been tested in court. I am sure that "minimum maintenance" does not mean a no-maintenance road. A warning sign is not a barricade and it is reasonable to assume the road is passable in dry weather, but may be impassable during periods of snow and wet weather. The road should be reasonably safe to travel during dry weather by an alert driver.

Signing Signage

MUTCD

KSA 8-2003 requires the Kansas Secretary of Transportation to adopt a signing manual. When adopted the signing manual applies to all public roads in Kansas including city

streets, county roads, and township roads. On December 16, 2011 the Secretary of Transportation adopted the *Manual on Uniform Traffic Control Devices 2009 Edition* (2009 MUTCD), prior to December 16 the 2003 MUTCD was the adopted signing manual. So at this time the 2009 MUTCD is the signing standard for public roads and all road agencies should immediately start complying with this standard.

The MUTCD can viewed or downloaded from MUTCD website at: <http://mutcd.fhwa.dot.gov/index.htm>. To obtain a paper copy the downloaded version may be printed and inserted in a binder. A paper version can be purchased from Amazon, or agencies listed on the MUTCD website.

County/Township Responsibilities

Generally all signing on a township road is the responsibility of the township except for signing at county bridges and culverts. Counties normally maintain the object markers and weight limit signs at county bridges and culverts. Since counties do not check signing on township roads the township should notify the county if one of their signs on a culvert or bridge is missing or damaged.

Regulatory Signing

Regulatory signs are generally the STOP, YIELD, and speed-limit signs. In most counties, the townships are not authorized to establish regulatory signing, and the county commission must pass a resolution authorizing the regulatory sign. KSA 8-2005

authorizes townships in Douglas, Johnson, Riley, Shawnee and Sedgwick counties to place regulatory signing with general supervision by the Board of County Commissioners. County policy will govern whether the townships are required to maintain regulatory signs.

Sign Assessment System

The MUTCD does require each agency to have a sign-assessment system so that their signs meet minimum reflectivity levels. The compliance date for a sign-assessment system is May 2014. There are a number of assessment systems that could apply to small governments like townships:

1. Annual night-time inspection by a trained observer.
2. Replacement of individual signs based on estimated sign life or retro-reflectivity measurements.
3. Blanket replacement of all signs in an area based on estimated sign life.

The sign assessment system needs to be written, and documentation that the system is being maintained needs to be preserved for a number of years. A signing inventory is not a requirement, but an inventory will allow better management and may reduce long term costs.

Signing Penalty

There is no penalty or fine for failure to comply with the MUTCD. However, as a public agency we have a duty to maintain signs in accordance with the MUTCD. If we fail to perform this duty, and someone gets hurt, this standard is enforced through tort liability. The injured person's attorney has to show that the lack of complying with the MUTCD was a contributing factor that caused the accident, and the township may have to pay damages.

Utilities

Public Utility Authorization

State law authorizes public utilities to use road right-of-way, without permission of the adjacent land owner. The specific laws are as follows:

- Electric cooperatives: KSA 17-4601 et seq
- Phone: KSA 17-1901 et seq
- Wind power: KSA 17-4654 et seq
- Sewage: KSA 16-623 – 4
- Other public utilities: Mall v. C.&W. Rural Elec. Coop. 213 P.2d 993

The statute wording is nearly uniform and allows the utilities to: construct, maintain and operate lines along, upon, under, and across publicly-owned lands and public thoroughfares, roads, highways, streets, alleys, bridges, and causeways in conformity with the laws of the state of Kansas. Court cases have further stated utilities cannot obstruct or hinder the usual travel, adversely affect public safety, or obstruct the legal use by other utilities.

Permitting

State law also provides that local agencies may establish rules and regulations governing the use of public right-of-way as long as the rules are competitively neutral and are not unreasonable or discriminatory. One of the laws that applies to utilities or any other person is KSA 68-545, which requires permission to dig in the road right-of-way.

Damages

The common law rule for damages is that when someone damages your property you are entitled to compensation. This would apply to utility companies that are working on the right-of-way, except when they are legally driving on the road. Most utility work is done by contract and most contracts have a clause that the contractor has to restore the work area. Contractors working for utility companies will have liability insurance and may be bonded. First contact for damage repair should be the contractor to inquire when they will repair the damage. It is best to stress that you are only interested in public safety and restoration of the right-of-way. Most contractors do not want you to contact their insurance company or their bonding company, but that is your right if they do not respond. If the contractor fails to respond, then contact the owner to see if the contractor has a restoration clause, performance bond, and insurance. If the contractor fails to restore the right-of-way, then it may be necessary to perform the work and send the contractor an invoice for damages.

Private Utilities

On occasion, private companies or individuals request permission to install a pipeline on right-of-way. Common examples include crude oil lines between an oil well and a tank battery, an irrigation pipe, and a pipe carrying animal waste from a feed lot to a lagoon. Counties are accustomed to granting permission for public utilities to install lines on right-of-ways. Requests from a private company may not seem much different from public utilities, but there are many significant differences.

The county and township only have a road easement. The state legislature and court cases have given certain public utilities authority to use the road easement. These statutes and court cases do not apply to private lines, and most agencies do not believe counties or townships have the power to authorize the installation of private lines in the right-of-way. If a private company needs to cross the road, they must obtain permission to install the line from the adjoining land owners, so there are no property-owner issues with the authority to grant the permit. Where pipelines cross the road they should be clearly marked, as few private companies are members of One-Call.

Drainage

Note: This information on drainage is from an article by Norm Bowers in the May 2011 issue of the *County Comment*.

General

There is an old saying that “the only thing you need to know about drainage is that water runs downhill.” Water certainly runs downhill, but the rest of the saying is incorrect. For road work drainage is one of the more complicated issues facing road-maintenance workers. I

Drainage is certainly a bigger issue in eastern Kansas than western Kansas. The Kansas Geological Survey has published a map that shows the mean annual runoff. The map shows 0.1 inches of runoff in western Kansas and gradually increases to 10 inches of runoff in eastern Kansas. So eastern Kansas has 100 times the surface water runoff as western Kansas.

Figure 4. Mean annual runoff (in inches) in Kansas. The areas west of the dashed line shows the extent of the High Plains aquifer in Kansas (Adapted from Wetter, 1987).

In western Kansas, the road ditch is less for drainage and more for obtaining dirt to build up the road above the surrounding ground so the snow will blow off. In eastern Kansas the road ditch is definitely needed to provide drainage for the road.

Common Law

This may seem strange to those in western Kansas, but historically surface water has been seen as a common enemy of landowners. The common law relating to drainage was developed in merry ol' England and eastern states where surface water causes problems. So the common law that developed allowed landowners to protect their property from surface water. That is, the “landowner has the right to use and improve his own land for the purpose for which similar land is ordinarily used; and may build upon it, or raise or

lower its surface, even though the effect may be to ... shed surface water over land upon which it would not otherwise go.” *Liston v. Scott*, 108 Kan. 180, 194 P. 642 (1921).

Agricultural Areas

Obstructing Ditches

Kansas also prohibits blocking a natural-drainage course in KSA 24-206: “If any person shall maliciously or willfully fill up or obstruct any ditch, drain, or watercourse, he shall forfeit and pay to the county... the sum of ten dollars... and shall moreover be liable for all damages that may accrue to any person or persons by such an act or acts.”

Backwater from culvert

Preceding are the basic drainage laws in Kansas, but as you might imagine drainage has been the subject of many court cases and there are cases that deal specifically with road drainage. Backwater from culverts has been addressed by the courts a number of times and in 1919 in *Scott v Glenwood Tp*, the court stated:

It is true, as plaintiff contends, that an insufficient culvert which throws the water back upon the land of an abutting owner, substantially damaging him, constitutes a nuisance, which may be abated by judicial action (*Murphy v. Fairmount Township*, 89 Kan. 760, 133 Pac. 169). To be entitled to an injunction it was necessary for the plaintiff to establish that the culvert caused substantial injury to her property.

So it is fairly well established that backwater from a culvert is permissible if it does not result in substantial damage, but be careful when replacing culverts or bridges with smaller structures.

Controlling Floodwater

It seems that people who own land that floods usually ask the city or county to do something about it. Well the courts have considered this matter, and local government is not required to solve everyone’s flooding problem. The general rule in Kansas is set in *Baldwin v. City of Overland Park*, 205 Kan. 1, 468 P.2d 168 (1970):

Kansas law generally recognizes no action against governmental entities for failure to control surface waters or for any increased or accelerated flow caused by lawful improvement, especially where it is demonstrated that the public improvement caused no greater amount of damage to adjoining landowners than would have been caused without the improvement. A city has no duty to provide drainage to take care of surface waters, and ordinarily its failure to protect citizens from surface water is not actionable.

The *Baldwin* Court also referenced *Corpus Juris Secundum*, a legal encyclopedia, which expounded that, “In the control and disposition of surface waters, municipal corporations ordinarily have the same rights and are subject to the same liabilities as private persons. In the absence of statute or charter providing otherwise, they are under no obligation to

prevent the natural flow of surface waters or to protect private property from damage therefrom, and they are not liable for any damage caused thereby.” *Baldwin*, 205 Kan. at 7 (citing [63 C.J.S. Municipal Corporations s 883](#), 275).

Increase in flow

Cities can develop and pave to increase the flow of water downstream, if in accordance with the principle of common law found in *Williamson v. City of Hays*, 275 Kan. 300, 64 P.3d 364 (2003):

As a general rule, a municipal corporation is not liable for damage caused by the increased or accelerated flow of surface waters which have not been diverted from their natural course, or by the incidental change or interruption in, the discharge of, or the increased or accelerated flow of surface waters caused by the lawful improvement of its streets or the making of other public improvements.

If the law were otherwise it would certainly be difficult for cities to expand.

Drainage Summary

To summarize, in agricultural areas we should not change the course, current, or content of surface water as it leaves our property. However, in cities and areas of development, the common law is more lenient and allows some increase in velocity and volume of surface water.

Training

Need for Training

As a township official it is easy to become isolated and unaware of new technology, regulations, and requirements. Election as a township official does not make a person an expert in road maintenance or the legal requirements relating to operation of a township. Training and information is available at little or no cost.

Kansas LTAP

Kansas Local Technical Assistance Program (LTAP) is one of 58 centers across the United States that promotes the national LTAP mission of fostering a safe, efficient, and environmentally-sound transportation systems by improving skills and knowledge of local transportation. Kansas LTAP provides training, technical assistance, and technology transfer. It also provides services to local public works agencies and their employees throughout Kansas. In operation since 1983, Kansas LTAP offers a variety of services, including newsletters, video and publication lending library, training, and technical assistance. The Kansas LTAP receives funding from the Federal Highway Administration (FHWA) and the Kansas Department of Transportation (KDOT).

The Kansas LTAP website describes the services in more detail:

<http://www.kutc.ku.edu/cgiwrap/kutc/ltap/index.php>. The website includes a lending library, description of upcoming classes, past newsletters, and contact information for the LTAP staff. Each township should receive a quarterly newsletter, and if your township is

not receiving the newsletter, contact Lisa Harris at lharris@ku.edu. The township can also receive notices of upcoming training by contacting Kristen Kelly at kbkelly@ku.edu.

LTAP one-day classes that are particularly applicable to townships include the following:

- Gravel road maintenance
- Public Works 1 & 2\ New Supervisors (2 day)
- Basic Surveying
- Estimating quantities
- Culverts & Drainage

Kansas County Government Institute

Another training option is available through the Kansas Association of Counties. The Kansas County Government Institute is a program geared towards management and budget. The institute is described in detail on the KAC website at:

AG Opinion No. 82-104 Township Treasurer Duties

May 24, 1982

Re: Townships and Township Officers--Township Treasurer--Duties

Synopsis: The duties of a township treasurer are set forth in Article 4 of Chapter 80, Kansas Statutes Annotated, and include the custody of all moneys of the township, the keeping of account books and voucher files and the publishing of notices concerning the financial position of the township. Furthermore, if the payment of money by the township is made by a warrant issued pursuant to K.S.A. 10-801 et seq., the treasurer must sign the warrant before it may be presented to the payee. Interference by other township officials with such duties can, if necessary, be the subject of a quo warranto action initiated by the county attorney. Cited herein: K.S.A. 10-803, 10-804, 60-1203, 80-401, 80-402, 80-403, 80-404, 80-405, 80-410.

Dorothy Shearer
County Clerk
Norton County Courthouse
P. O. Box 70
Norton, Kansas 67654

Dear Ms. Shearer:

As County Clerk for Norton County, Kansas, you request our opinion on behalf of the treasurer of Solomon Township as to the scope of that official's duties. You inform us that at present the township clerk writes and signs all checks drawn on the township, while the township trustee makes deposits and countersigns the checks. The treasurer does not receive any record of deposits which are made or checks which are issued, and so is unable to keep account books in preparation for the annual report due in October. The duties of a township treasurer are numerous, being set forth for the most part at K.S.A. 80-401 et seq. They include the following:

K.S.A. 80-401.

'The township treasurer shall receive and take charge of all moneys belonging to the township, or which are by law required to be paid to him or her, and shall pay out and account for the same upon orders drawn upon him or her by the township trustee, and shall discharge such other duties as may be required of him or her by law.' (Emphasis added.)

K.S.A. 80-402.

'The township treasurer shall keep a true account of all moneys by him or her received by virtue of his or her office, and the manner in which the same have been disbursed, keeping a separate account with each fund, in a book to be provided at the expense of the township for that purpose, and shall exhibit such account, together with his or her vouchers, to the township auditing board at their annual meeting on the last Saturday of October in each year for adjustment and settlement.' (Emphasis added.)

K.S.A. 80-403.

'The account as provided for in the last preceding section shall be made out in duplicate, and shall be verified by affidavit that the same is in all respects true and correct, and that

it contains the full and true amount of all moneys received by him or her during the full period of time for which he or she should make such statement; and one of such verified duplicates shall be filed forthwith by the treasurer in the office of the county clerk.'

(Emphasis added.)

K.S.A. 80-404.

'In all townships the township treasurer shall deposit all public money coming into his or her hands in an official capacity in a bank which is a member of the Federal Deposit Insurance Corporation or a savings and loan association which is a member of the Federal Savings and Loan Insurance Corporation within the county, the same to be designated by the township board. Such deposits shall be made in the name of such treasurer as such officer. Township moneys not immediately required for the purposes for which such moneys were collected or received may be invested in the manner provided by K.S.A. 1977 Supp. 12-1675.' (Emphasis added.)

K.S.A. 80-405.

'Every township treasurer shall keep, in a book provided for that purpose, a true account of all moneys received and disbursed by him or her by virtue of his or her office, specifying particularly the sources from which money has been received by him or her; and the person or persons to whom and the objects for which the same has been paid out by him or her; and he or she shall present to the township board, at their quarterly meeting in October, a full and correct itemized statement, duly signed and certified by him or her, of all moneys received and of all moneys paid out by him or her during the year, and he or she shall exhibit the vouchers therefor, which certified statement shall be on a blank provided for that purpose. Said report of said treasurer shall be carefully examined by the board, and when found correct shall be approved by them, and placed in charge of the township trustee.' (Emphasis added.)

K.S.A. 80-410.

'The treasurer of each and every township shall publish, or cause to be published, in some newspaper published in the township of which he or she is treasurer, or in some newspaper published in the county in which such township is located and having a general circulation in such township, immediately following the annual settlement in December of each year, a full and detailed statement, duly verified, of the receipts, expenditures and liabilities of such township for the year ending at the time of such annual settlement.' (Emphasis added.)

In addition, duties of the treasurer concerning warrants or warrant checks drawn on the township are set out at K.S.A. 10-801 et seq. While the trustee initially signs such instruments (K.S.A. 10-803), which are then recorded by the clerk (K.S.A. 10-804), the treasurer must thereupon 'enter in a book kept for that purpose, the number, date and amount of such warrant, or warrant check, on what fund drawn, and the name of the payee.' (K.S.A. 10-805). Further, the treasurer must sign the instrument before it may be delivered to the payee. V Op. Att'y Gen. 631 (Letter of September 15, 1966 to Charles W. Thompson).

While numerous duties of the three elected township officials have been found to be joint ones, exercised through the township board meeting as a body (Attorney General Opinion No. 81-141), those duties set out above are clearly placed solely upon the township treasurer. Given the facts that you present, it may currently be difficult for the treasurer to exercise such duties. Should the impasse continue, a remedy at law exists in the form of a

proceeding in quo warranto, K.S.A. 60-1201 et seq. This action may be used to oust the other township officials from an improper exercise of powers given by statute to the treasurer. See, e.g., State ex rel., Stephan v. Carlin, 229 Kan. 665 (1981). By statute, the county attorney is empowered to bring such an action (K.S.A. 60-1203). However, this remedy is an extraordinary one, and it may well be that a meeting between the township officials and the county attorney could resolve the situation before such an action was brought.

In conclusion, the duties of a township treasurer are set forth in Article 4 of Chapter 80, Kansas Statutes Annotated, and include the custody of all moneys of the township, the keeping of account books and voucher files and the publishing of notices concerning the financial position of the township. Furthermore, if the payment of money of the township is made by a warrant issued pursuant to K.S.A. 10-801 et seq., the treasurer must sign the warrant before it may be presented to the payee. Interference by other township officials with such duties can, if necessary, be the subject of a quo warranto action initiated by the county attorney.

Very truly yours

of the township or from the general road fund of the township, or from either or both of the funds.

The township board may accept land in the form of a gift, donation or devise without first submitting the question to a vote of the electors of the county.

The election shall be called, noticed and held in the manner provided by K.S.A. 10-120, and amendments thereto. If a majority of the votes cast at any such election authorizes any sale or disposition, such sale or disposition shall be made upon the notice hereinbefore prescribed by publication, to the highest bidder, except that the township board shall have the right to reject any or all bids.

The board may reject any or all bids and may resubmit the personal property for new competitive bid procedures.

(c) In lieu of procedures for the sale of personal property established in subsection (b), a township board may adopt a resolution establishing an alternate methodology for disposal of personal property. Such alternate methodology for the disposal of personal property shall contain procedures for:

- (1) Public notice of the sale or disposition;
- (2) a description of the property to be sold;

80-120. Transfer of township powers and duties to county; procedure; creation of special fund in certain cases.

(a) The township board of any township may adopt a resolution proposing to transfer all powers, duties and functions of the township board to the board of county commissioners of the county in which such township is located. Such resolution shall be submitted to the qualified electors of the township at an election called and held thereon. Such election shall be called and held in the manner provided by the general bond law. (b) Upon approval of the resolution by the voters, the township board shall pay over to the county treasurer of such county any and all unused money or funds or surplus funds in the hands of such township board which have been received or acquired by such township from any source. Upon receipt of the funds and moneys, the county treasurer shall credit the same to a special fund for each such township unless the board of county commissioners by a 2/3 vote of all members of the board determines that all duties and funds transferred by the township shall be assumed by the county in which case such funds shall be deposited in the county general fund.

If a special fund is created, the board of county commissioners shall expend the moneys in such special fund for the exercise of the powers, duties and functions imposed by law upon township boards in the township from which it was received. The board shall itemize the expenses and amounts and the purposes therefor. Subject to the same limitations imposed by law on township boards, the board of county commissioners are hereby authorized to levy a tax upon all assessed taxable tangible property of the township sufficient to raise the amount for such expenditures. The money derived from such levy shall be deposited in the county treasury and credited to the special fund established pursuant to subsection (b).

The board of county commissioners shall call and hold a hearing on such resolution. Notice of the hearing shall be published at least once each week for two consecutive weeks in a newspaper of general circulation in the township. At such hearing, any person who desires to appear and speak shall be given the opportunity to be heard.

(b) Following such hearing, the board of county commissioners may adopt a resolution of intent to acquire the land, or any portion of such land, described in the petition submitted by the township board. If the board of county commissioners determines that land other than that described in the petition is more suitable for the township purposes, the board may adopt a resolution of intent to acquire such other land for the township.

Any resolution adopted pursuant to this subsection shall be published at least once each week for two consecutive weeks in a newspaper of general circulation in the township. If within 30 days following the date of last publication, a petition signed by at least 5% of the qualified electors of the township is filed with the county election officer, no land shall be acquired pursuant to this section unless the question is submitted to and approved by a majority of the qualified electors of the township voting at an election thereon. Such election shall be called and held in the manner provided by the general

bond law.

(c) If a sufficient petition is not filed or if the question has been submitted and approved at an election as provided by subsection (b), the board of county commissioners shall acquire, by purchase or eminent domain, the land described in the resolution of intent. Upon acquisition of such land, the board of county commissioners shall convey title thereto to the township. The township shall reimburse the county for all expenses incurred by the county relating to the acquisition of such land, including notice and election expenses.

(d) No more than three acres of land may be acquired pursuant to this section. Any land acquired pursuant to this section shall be used for township purposes.

The board may join with any corporation, association, society or lodge in the construction or purchase and use of buildings or land acquired pursuant to this section, upon such terms and conditions as may be agreed upon by such township and corporation, association, society or lodge.

(f) The township board may issue general obligation bonds of the township to finance the costs of the acquisition of land and the construction and acquisition of township buildings. No such bonds shall be issued unless such issuance is submitted to and approved by a majority of the qualified electors of the township voting at an election called and held on such issuance. Such election shall be called and held in the manner provided by the general bond law. The question of issuance of bonds may be submitted at any election held pursuant to subsection (b).

Moneys not to exceed 25% annually of the township general fund may be budgeted and transferred to such fund. For the purposes of this act, equipment shall include machinery, vehicles and any other equipment or personal property.

(b) Moneys credited to such fund from annually budgeted transfers shall not thereafter be subject to the provisions of K.S.A. 79-2925 to 79-2937, and amendments thereto. In making the budgets of such township, the amounts credited to, and the amount on hand in, such equipment reserve fund and the amount expended therefrom shall be shown thereon for the information of the taxpayers of such township. Moneys in such fund may be invested in accordance with the provisions of K.S.A. 12-1675, and amendments thereto, with interest thereon credited to such fund.

(c) If the township board determines that money which has been credited to such fund or any part thereof is not needed for the purposes for which so budgeted or transferred, the board may transfer, by adoption of a resolution, such amount not needed to the

general fund and such retransfer and expenditure thereof shall be subject to the budget requirement provisions of K.S.A. 79-2925 to 79-2937, and amendments thereto.

AG Opinion No. 88-138 Township Expenditures, Hiring an Attorney & Annexations

September 16, 1988

Re: Cities and Municipalities--Additions, Vacation, and Lot Frontage; Annexation by Cities--Conditions Which Permit Annexation; Ordinances; Actions Challenging Validity

Townships and Township Officers--General Provisions--Corporate Status; Powers

Synopsis: It is our opinion that a township may expend moneys from the proper township fund in order to hire an attorney for township purposes. Such purposes may include appearing on behalf of the township at a public hearing concerning proposed annexation pursuant to K.S.A. 1987 Supp. 12-520. However, a township may not expend public moneys to hire an attorney merely for lobbying against an annexation on behalf of the township or representing the legal interests of private landowners. Cited herein: [K.S.A. 10-1101](#); K.S.A. 1987 Supp. 12-519; 12-520; 12-520a; 12-520a(e); 12-521; 77-201 Thirteenth; 79-1962; [K.S.A. 79-2934](#); 80-101.

Mr. Donald Wayne Estes
Shawnee Township Trustee
4804 Quivira Drive
Shawnee Mission, Kansas 66216

Dear Mr. Estes:

As Shawnee Township Trustee you request our opinion on using township funds to hire an attorney to represent the township in proceedings connected with the proposed annexation of township property by the city of Shawnee. You inform us that the proposed annexation is proceeding pursuant to [K.S.A. 12-520](#) et seq. and that if it is successful your township will be left with very little unincorporated area and no residents. You also inform us that the landowners of the township oppose the annexation and prefer to remain part of the township.

In general, a township is a territorial district, subordinate to a county, the inhabitants of which are vested with political and administrative powers for regulating their own local affairs. 1 McQuillan, *Municipal Corporation*, § 1.30 (1987). [K.S.A. 80-101](#) et seq. sets forth the basic powers and duties of Kansas townships. The authority to appoint attorneys and make necessary contracts is discussed in [K.S.A. 80-101](#) which states:

"Each organized township in this state shall be a body politic and corporate, and in its proper name sue and be sued, and may appoint all necessary agents and attorneys in that behalf, and may make all contracts that may be necessary and convenient for the exercise of its corporate powers."

Thus, a township has authority to hire an attorney in order to bring or defend a suit or when "necessary and convenient for the exercise of its corporate powers." The only restrictions upon expenditures made to hire an attorney are (1) any applicable budgetary laws and (2) whether it properly exercises a corporate power of the township.

K.S.A. 1987 Supp. 79-1962 establishes limitations upon the levy of taxes by a township. While this authority does not establish a specific fund for attorneys' fees, it does discuss

a tax levy for the township general fund. [K.S.A. 80-1422](#), which allows certain township officials to receive additional compensation from the general fund, evidences the propriety of paying employment compensation from the general fund. Moreover, use of general funds to pay the costs of certain township business appears to be a township corporate purpose.

[K.S.A. 79-2934](#) limits expenditures from funds appropriated for another fund or purpose and [K.S.A. 10-1101](#) et seq. limits the ability of municipalities to incur debt. The established budget of Shawnee township will determine the availability of funds for the proposed purpose of hiring an attorney. Assuming that the proper funds are available, it is our opinion that a township may hire an attorney in order to represent the township in matters within the scope of township purposes. See also 87 C.J.S., Towns, § 54 (1954), and [Emporia Township v. Williams, 149 Kan. 860, 865 \(1939\)](#).

The second issue becomes to what degree and in what capacity a township is authorized to protest a proposed annexation and if that involvement by the township can be characterized as a township corporate purpose sufficient to permit the employment of an attorney.

K.S.A. 1987 Supp. 12-519 et seq. discusses annexation of territory by cities. K.S.A. 1987 Supp. 12-520a(d)(2) requires that a notice of the resolution considering annexation be sent to the governing body of the township where the land to be annexed is located. K.S.A. 1987 Supp. 12-520a(e) allows all interested persons to be heard at the public hearing concerning annexation. K.S.A. 1987 Supp. 77-201 Thirteenth states that in construction of the statutes of this state, "person" may be extended to mean bodies politic and corporate. A township is such a body, pursuant to [K.S.A. 80-101](#), and may therefore be considered a person. Therefore, K.S.A. 1987 Supp. 12-520a(c) allows and authorizes a township to speak at the public hearing. Thus, it is our opinion that hiring an attorney to appear at such a public hearing on behalf of the township is a permissible use of public moneys for an authorized corporate purpose.

We have been informed that the city of Shawnee is proceeding under K.S.A. 1987 Supp. 12-520. Subsection (g) of that provision allows a protesting landowner "to maintain an action ... challenging the authority of the city to annex the land and the regularity of the proceedings...."

Previous Kansas case law discussed standing to challenge annexation. In [Fairfax Drainage District v. City of Kansas City, 190 Kan. 308 \(1968\)](#), the court did not permit a collateral challenge to the annexation proceedings to be brought in the name of the drainage district. Enacted after this case, K.S.A. 1987 Supp. 12-520, statutorily authorized court challenges by any owner of land annexed by a city under authority of that section. It did not, however, extend legal standing to include other persons or entities.

After enactment of [K.S.A. 12-520](#), the Kansas court again discussed standing to challenge annexation proceedings in [City of Lenexa v. City of Olathe, 229 Kan. 391 \(1981\)](#). The court differentiated between annexations proceeding pursuant to [K.S.A. 12-520](#) and [12-521](#): "Syl. ¶ 2: 'Under the statutes pertaining to the annexation of land by cities ([K.S.A. 12-519](#) et seq.), where a dispute arises as to the annexation of land which adjoins a city the only interested parties to the controversy are the city and the owner of the land which has been proposed for annexation. Other incorporated cities in the county do not have standing to challenge a proposed annexation where the land adjoins the city and the owner of the land consents to the annexation.'

"Syl. ¶ 3: 'In cases of a proposed annexation of land not adjoining the city, the rights of another incorporated city in the county must be considered and it has an interest which entitled it to challenge such an annexation in the district court.' "

Subsequent amendments to [K.S.A. 12-520\(g\)](#) have not extended legal standing to challenge annexation procedures to entities other than the landowners. If the annexation in question is proceeding pursuant to K.S.A. 1987 Supp. 12-520 and the land adjoins the city, the only interested parties to the controversy are the city of Shawnee and the individual landowners in the affected area. Thus, these are the only parties granted legal standing to challenge annexation proceedings.

There is a trend towards permitting municipal or quasi-municipal corporate parties to challenge governmental actions rather than only permitting individuals to challenge the validity of territorial annexation. McQuillin, *Municipal Corporations*, § 7.43 (1988). K.S.A. 1987 Supp. 12-521 evidences such a trend in Kansas; where the proposed annexation of land affects land not adjoining the city, other cities may challenge the annexation. However, a township is not a city. Moreover, the proposed annexation purportedly affects land adjoining the city and the annexation is therefore proceeding pursuant to [K.S.A. 12-520](#) not 12-521. Thus, Shawnee township apparently does not have standing to bring an action challenging the annexation proceedings.

If the township does not have legal standing to challenge annexation proceedings, the other purposes for hiring an attorney include lobbying for a particular annexation decision or representing the legal interests of the affected landowners. As previously recognized, [K.S.A. 80-101](#) allows the township to exercise corporate powers. It therefore becomes necessary to determine whether such corporate powers include the power to lobby against annexation or to fund the legal representation of private landowners who are protesting annexation.

Previous Attorney General opinions discuss the authority to approve expenditures of public funds for lobbying. As discussed in Opinions No. 81-216 and 83-52, such authority must exist either as expressly conferred or necessarily implied powers. Pursuant to K.S.A. 1987 Supp. 12-520a(e) a township is statutorily authorized to appear at the public hearing held on annexation. Beyond that, we find no authority allowing the township to lobby or intervene. It is therefore our opinion that a township may not hire an attorney merely to lobby against a proposed annexation.

Attorney General Opinion No. 86-177 discussed the authority of a watershed district to retain counsel in order to assist a private landowner with legal costs incurred as a result of litigation that peripherally affected the district. While the opinion noted that the district could possibly benefit from the employment of such an attorney, we opined that such employment was impermissible.

"It is a fundamental rule of law that a lawyer cannot permit a person who pays him to render legal services for another to direct or regulate his professional judgment in rendering such legal services. K.S.A. 7-125, DR 5-107(B). Thus, even if the district pays an attorney to represent a landowner before the IRS, that attorney owes no duty to the district. Since the interests of the individual landowner and those of the district may not always be the same, and since any appropriation of public money must be for a public purpose, such an expenditure would be impermissible. See [In re Page, 60 Kan. 842 \(1899\)](#)." (Emphasis added.)

It is our opinion that the legal principles enunciated in Opinion No. 86-177 also prohibit

the retainment of counsel by a township in order to represent individual landowners who are protesting annexation.

In summary, it is our opinion that a township may expend moneys from the proper township fund in order to hire an attorney for township purposes. Such purposes include costs connected with appearing on behalf of the township at proceedings where a township has legal authority or standing such as a public hearing concerning proposed annexation pursuant to K.S.A. 1987 Supp. 12-520. However, a township may not expend public moneys to hire an attorney in order to lobby against an annexation on behalf of the township or represent the legal interests of private landowners.

AG Opinion No. 97-62 CDL for Grader Operators

June 20, 1997

Re: Automobiles and Other Vehicles--Drivers' Licenses; Uniform Commercial Driver's License Act--Definitions; Road Grader Operator Required to Have a Commercial Driver's License

Synopsis: The operator of a township road grader used on the public roadways for transportation related purposes is required to obtain a commercial drivers' license. Cited herein: K.S.A. 8-2, 126; 8-2, 127; K.S.A. 1996 Supp. 8-2, 128; K.S.A. 8-2, 132; [49 U.S.C.A. §§ 31301, 31308](#); [49 C.F.R. §§ 383.3](#); 383.5.

Ridgeway Township Board c/o Morris I. Mercer
Treasurer
Rural Route 1
Carbondale, Kansas 66414

Dear Board Members:

You request our opinion regarding whether the Township's part time road grader operator is required to have a commercial driver's license (CDL). You state that while the grader has a gross weight of 33,000 pounds, it does not haul passengers or property and is not licensed or tagged by the State of Kansas. You believe that under these circumstances the grader is not a commercial motor vehicle as defined by federal law and therefore there is no requirement for obtaining a CDL to operate the grader. K.S.A. 8-2, 132 provides that, with certain exceptions, no person may drive a commercial motor vehicle unless the person has a valid commercial driver's license. Commercial motor vehicle is defined as:

"[A] motor vehicle designed or used to transport passengers or property, if:

"(1) The vehicle has a gross vehicle weight rating of 26,001 or more pounds or such lesser rating, as determined by rules and regulations adopted by the secretary [of the Department of Revenue], but shall not be more restrictive than the federal regulation;

"(2) the vehicle is designed to transport 16 or more passengers, including the driver; or

"(3) the vehicle is transporting hazardous materials and is required to be placarded in accordance with 49 C.F.R. 172, subpart F, effective January 1, 1991;" K.S.A. 1996 Supp. 8-2,128(f).

A motor vehicle is "every vehicle which is self-propelled, ... but not operated upon rails, except vehicles moved solely by human power and motorized wheel chairs;" K.S.A. 1996 Supp. 8-2,128(r). These definitions track those found in the federal law regulating commercial motor vehicle operators. [49 U.S.C.A. § 31301\(4\), \(11\)](#). See also [49 C.F.R. § 383.5](#).

While the terms in question have not been further defined by the State, the United States Department of Transportation, Federal Highway Administration (charged with administering the federal law regarding commercial motor vehicle operators, [49 U.S.C.A. § 31308](#)) has issued interpretations describing the applicability of the federal motor carrier

safety regulations to operators of construction equipment such as motor graders. Generally operators of off-road motorized construction equipment are not required to obtain a CDL even if the machinery is operated on a public highway for purposes of moving from one construction site to another. The basis for this conclusion is that such equipment is not designed to operate in traffic. However, when used for snow or leaf removal, the interpretations conclude that operators of such construction equipment are required to obtain a CDL because the equipment is being used on public roads and in furtherance of a transportation purpose, removal of snow or leaves from the road. The basis for the exception would no longer exist if the equipment is being used in traffic for transportation purposes. Regulatory Guidance Part 383--Commercial Driver's License Standards: Requirements and Penalties, [Section 383.3](#)--Applicability (Dec. 20, 1995). Further, the Federal Highway Administration has opined that State vehicle registration has no bearing on who is required to obtain a CDL (Regulatory Guidance, [Section 383.3](#)) and, with regard to the definitional requirement that a vehicle transport "passengers or property" to be considered a commercial motor vehicle, that "the construction equipment is itself the property being transported as it performs a service such as snowplowing." Regulatory Guidance, [Section 383.5](#)--Definitions. These interpretations have not been rescinded or amended and thus appear to be the current view of the Federal Highway Administration. Thus, an operator of a road grader would be required to have a CDL if the grader is used on the public roads for transportation purposes. If the grader is used only for off-road construction purposes, no CDL would be required.

The federal regulations do contain an exception for drivers employed by local units of government operating a commercial motor vehicle within the boundaries of that unit of government for the purpose of removing snow or ice, but only if the State exempts such individuals from the CDL requirements and only in certain emergency situations. [49 C.F.R. § 383.1\(d\)\(3\)](#). The State of Kansas has not chosen to exempt such drivers. See [K.S.A. 8-2.127](#).

In conclusion, because the State is obligated to comply with the federal law regarding operators of commercial motor vehicles ([49 U.S.C.A. § 31308](#) and [K.S.A. 8-2.126](#)) and the Kansas Director of Motor Vehicles follows the Federal Highway Administration's guidelines in interpreting and enforcing the state CDL law, it is our opinion that the operator of a road grader used on the public roadways for transportation related purposes is required to obtain a CDL.

(g) Every agreement made hereunder, except agreements between two or more public agencies establishing a council or other organization of local governments for the study of common problems of an area or region and for the promotion of intergovernmental cooperation, prior to and as a condition precedent to its entry into force, shall be submitted to the attorney general who shall determine whether the agreement is in proper form and compatible with the laws of this state. The attorney general shall approve any agreement submitted hereunder unless the attorney general shall find that it does not meet the conditions set forth herein and shall detail in writing addressed to the governing bodies of the public and private agencies concerned the specific respects in which the proposed agreement fails to meet the requirements of law. Failure to disapprove an agreement submitted hereunder within 90 days of its submission shall constitute approval thereof.

12-2904a. Same; powers and duration of separate legal entities created thereby; certain functions prohibited.

(a) Any interlocal agreement entered into under the provisions of K.S.A. 12-2901 *et seq.*, and amendments thereto, may authorize the creation of a separate legal entity to conduct the joint or cooperative action provided for in the agreement. Such separate legal entity shall constitute a body corporate and politic, and shall have, in addition to any other powers reasonably necessary to the exercise of its function under the agreement, the following powers to:

(b) In addition to its other powers, any separate legal entity referred to in this section shall be authorized, subject to any limitations imposed by contract, to issue bonds, notes or other evidence of indebtedness, in its own name, on behalf of the public agencies that are or become parties to the agreement creating the separate legal entity for those purposes for which such public agencies are authorized pursuant to the constitution and laws of this state to issue bonds, notes or other evidence of indebtedness. Such bonds, notes or other indebtedness may be payable from or secured by any property, interest or income of the separate legal entity, from whatever source derived, but shall not constitute a charge against or indebtedness of any public agency on behalf of which such bonds, notes or other indebtedness are issued. In issuing such bonds, notes or other indebtedness, the separate legal entity shall act as the constituted authority of the public agencies on behalf of which such bonds, notes or other indebtedness are issued, and the interest on such bonds, notes or other indebtedness shall be exempt from taxation under the laws of this state. Nothing in this act shall be construed to authorize any separate legal entity to issue or sell bonds, notes or other evidence of indebtedness, or use the proceeds thereof, to purchase, condemn, or otherwise acquire a utility plant or distribution system owned or operated by a regulated public utility as defined by K.S.A. 66-104 and amendments thereto.

(c) The duration of any separate legal entity referred to in this section may be perpetual or as otherwise provided in the agreement under which it was created; however, any property owned or held by such separate legal entity shall become the property of the public agencies that are parties to such agreement, according to the terms of that agreement or as otherwise determined according to equitable principles, if and when at any time no bond, note or other indebtedness of the authority is not currently outstanding and unpaid. No property of such separate legal entity shall inure to the benefit of any private individual, corporation or association other than for fair value received.

(d) No such separate legal entity shall operate or administer any arrangement or program under which any two or more municipalities, as defined in K.S.A. 75-6102, and amendments thereto, have agreed to pool their liabilities incurred as a result of negligent or wrongful act or omission of their employees or any other liabilities or losses incurred by such municipalities regardless of the cause thereof.

In the event that an agreement entered into pursuant to this act is between or among one or more public agencies of this state and one or more public agencies of another state or of the United States, said agreement shall have the status of an interstate compact, but in any case or controversy involving performance or interpretation thereof or liability thereunder, the public agencies party thereto shall be real parties in interest and the state may maintain an action to recoup or otherwise make itself whole for any damages or liability which it may incur by reason of being joined as a party therein. Such action shall be maintainable against any public or private agency or agencies whose default, failure of performance, or other conduct caused or contributed to the incurring of damage or liability by the state.

History: L. 1957, ch. 100, § 5; March 25.

12-2906. Same; additional approval of certain agreements; insurance-pooling agreements.

This requirement of submission and approval shall be in addition to and not in substitution for the requirement of submission to and approval by the attorney general.

Any agreement to participate in a group-funded pool or any other insurance-pooling arrangement shall be subject to the provisions of K.S.A. 12-2616 to 12-2629.

History: L. 1957, ch. 100, § 6; L. 1987, ch. 74, § 15; May 28.

12-2907. Same; funds; property, personnel and service.

Any public agency entering into an agreement pursuant to this act may appropriate funds and may sell, lease, give, or otherwise supply the administrative joint board or other legal administrative entity created to operate the joint or cooperative undertaking by providing such personnel or services therefor as may be within its legal power to furnish: *Provided*, That the board of county commissioners of any county having a population of not less than forty-two thousand (42,000) nor more than fifty-eight thousand (58,000) with a total

12-2908. Contracts between certain municipalities.

(a) When used in this act, "municipality" means a city, county or township.

(b) Any municipality may contract with any municipality to perform any governmental service, activity or undertaking which each contracting municipality is authorized by law to perform. The contract shall be authorized by the governing body of the municipality and shall state the purpose of the contract and the powers and duties of the parties thereunder.

(c) A contract entered into pursuant to this section shall not be regarded as an interlocal agreement under the provisions of K.S.A. 12-2901 *et seq.*, and amendments thereto.

For the purposes of this act all references to "political and taxing subdivisions of this state" shall mean and include counties, townships, cities, school districts, library districts, park districts, road districts, drainage or levee districts, sewer districts, water districts, fire districts and taxing subdivisions created and established under the laws of the state of Kansas.

History: L. 1974, ch. 426, § 2; July 1.

The county engineer shall call a one-day meeting of all of the county and township road officials in each county at least once each year, for the purpose of discussing any and all matters pertaining to the improvement of the highways, bridges and culverts of the county and of the several townships, and to devise means of systematizing and standardizing the work. County officials in attending such meetings shall each receive from the county the same compensation as specified by law for county work. Township officials shall be compensated in an amount determined by the township board as provided by K.S.A. 80-207, and amendments thereto.

68-543a. In counties not under county united road system; culverts over ditches in front of private property; costs; additional culverts or new entrances; procedures; penalty.

(a) In counties which have not adopted the county unit road system, whenever it is necessary to make a ditch along a public road in front of any property at such depth as will in the opinion of the officials in charge of such road obstruct access from such property with the public highway, it shall be the duty of the county engineer on county roads and the township board on township roads to cause to be constructed and maintained a substantial culvert over such ditch, so as to make a good, safe crossing. The county shall pay for such improvement on county roads and the township on township roads. The cost of such culvert shall be paid by the owner of such property when such property does not have a culvert and the installation of such culvert is requested by the property owner or such property owner's agent. All moneys for the payment of such materials shall be deposited in the county road and bridge fund in case of counties in the township road fund, in case of townships.

(b) Whenever any property owner shall request an additional culvert or new entrance on a county road, the culvert or new entrance may be installed by the county engineer and the cost charged to the property owner. The county engineer may require the property owner to deposit the estimated cost of such installation before installing and constructing the culvert or new entrance, or the property owner may install and construct such additional culvert or new entrance, but only after first obtaining approval of plans therefor and permission to do so from the county engineer. Any such work shall be done by the owner subject to the direction and supervision of the county engineer.

(c) Whenever any property owner shall request an additional culvert or new entrance on a township road, the culvert or new entrance may be installed by the township board and the cost charged to the property owner. The township board may require the property owner to deposit the estimated cost of such installation before installing and constructing the culvert or new entrance, or the property owner may install and construct such additional culvert or new entrance, but only after first obtaining approval of plans therefor and permission to do so from the township board. Any such work shall be done by the owner subject to the direction and supervision of the township board.

(d) It shall be a public offense for any property owner or other person to construct a culvert or entrance across any ditch along a public road without first having secured approval of the plans therefor and permission to do so from the county engineer for county roads or township board for township roads. Any person who shall violate the provisions of this section shall, upon conviction thereof, be fined not less than \$50 nor more than \$100.

68-544. Tunnels under roads by landowners; approval; costs.

Any person owning land on both sides of the public road may at his own expense tunnel under such road from one side to the other, but he shall construct such tunnel so as not to endanger the public in the use of said road. Before constructing the said tunnel the landowner shall obtain from the officials in charge of such road and county engineer their approval of the place, the kind of tunnel, and the manner of constructing the same. The officials in charge of such road shall cause the necessary repairs to be made on said bridge or tunnel at the expense of the owner: *Provided*, That if a bridge or culvert is a necessary structure at the place where the owner desires such tunnel, the owner shall pay only the difference between the necessary cost of such structure and the cost of making it suitable for the passage of livestock under the roadway, such difference in cost to be ascertained and fixed by the county engineer. The actual cost of such repairs if not promptly paid by the owner of such land shall be certified by the county engineer to the county clerk, who shall enter the same upon the tax roll in a separate column as a tax charge against such land and the same shall be collected as other taxes are collected, and when collected shall be credited to the county road fund if a county road and to the proper township road fund if a township road.

68-545. Unlawful obstructions, excavations, removal of materials, dumping trash or other materials or plowing of roads; penalty; payment of cost to restore.

It shall be unlawful for any person or persons to obstruct any portion of a public highway, including any portion of the entire right-of-way, in any manner with intent to prevent the

free use thereof, or to make any holes therein, or to remove any earth, gravel or rock therefrom or any part thereof, or in any manner to obstruct any ditch on the side of any such highway and thereby damage the same, to dump trash, debris, sewage, or any other material, on any highway or any ditch on the side of any highway, or to plow any public highway for the purpose of scouring plows, or for any other purpose except for the improvement of such highway and as directed in writing by the county engineer and the township board of highway commissioners acting jointly. Any person or persons violating the provisions of this section shall be guilty of a misdemeanor, and upon conviction before any court having competent jurisdiction shall be fined for each and every offense under this act in the sum of not more than \$200, and shall pay costs of the action and the cost of cleaning the public highway and restoring it to its prior condition.

(a) In any county not operating under the county road unit system, any township in such county, pursuant to a written agreement with the board of county commissioners, may turn over the maintenance, repair and construction of township roads to the county as provided by this subsection. Any such agreement shall specifically state the duration of such agreement. The question of turning over the maintenance, repair and construction of the township roads to the county shall be submitted to a vote of the qualified electors of the township at the general election whenever there shall have been submitted to the board of county commissioners at least 60 days prior to the date of such general election a petition signed by 10% of the qualified electors of such township or a resolution of the township board calling for such election.

(b) Any township which has adopted the provisions of this act may abandon the provisions of this act, and take over the maintenance, repair and construction of township roads, as provided by this subsection. The question of abandoning the adoption of the provisions of this act shall be submitted to a vote of the qualified electors of the township at any general election after the date such township has adopted the provisions of this act,

Whenever any township has petitioned or voted to turn over the maintenance, repair and construction of the township roads to the county, as hereinbefore provided, the township board of such township is hereby authorized and directed to pay over to the board of county commissioners of such county any and all unused road money or funds or surplus funds and all other moneys received by such township for road purposes and in the hands of such township board and any road machinery or equipment owned by such township, to be used by the board of county commissioners for road work on the township roads in the township. The township board shall each year certify to the board of county commissioners, as is now prescribed by law, the aggregate amount to be raised by taxation for township road purposes within such township for the year next ensuing, and the board of county commissioners shall determine the rate of levy, and levy such rates as are now provided by law. Such taxes and all other moneys received by such township board for road purposes shall be placed by the county treasurer in a separate fund to be used by the county commissioners only for road work and improvement on township roads within the township: *Provided*, That the county shall not be obligated to spend on the roads and highways of such townships more money than is credited to said separate fund.

No rental charge shall be made by the county for the use of any machinery used on township roads in any such township except such rental as shall be mutually agreed upon by the said township board and board of county commissioners.

Such agreements also may provide methods of mutual assistance and cooperation whereby the machinery, equipment and employees of the county and township may be used for grading or bringing to grade township roads by the county or by the county and township and the completion and maintenance thereof by the township. Such agreements also may provide for the improvement and maintenance of city boundary line roads or streets in accordance with the provisions of K.S.A. 12-693, and amendments thereto. Any such agreement between a county and a township may require the county engineer, and it is hereby made the county engineer's duty in conformity

therewith, to make all necessary surveys for the laying out or bringing to grade any of such township roads.

68-5,102. Declaration of minimum maintenance roads; procedure; posting of road; limitation of tort liability.

(a) When the board of county commissioners of any county is of the opinion that any road within the county or on the county line is used only occasionally or is used only by a few individuals, the board may commence proceedings to declare the road a “minimum-maintenance road.” Roads which have been constructed with federal aid shall not be minimum-maintenance roads.

(b) When a determination is to be made that one or more roads or parts of roads may be declared minimum-maintenance roads, the board shall adopt a resolution describing such roads and shall transmit copies thereof to the planning commission of the county for its recommendation.

(c) When a resolution is adopted under subsection (b) the board of county commissioners shall cause it to be published once in the official county paper together with a statement that a hearing will be held on such determination with the time and place of such hearing specified. (d) Not later than 10 days after any road is declared to be a minimum-maintenance road, signs shall be posted thereon by the board of county commissioners stating "Minimum-maintenance, travel at your own risk." Such signs shall display black letters on a yellow background with the letters being at least two inches high.

(e) When any road described in (b) is on, or partly on, a county line, a copy of such resolution shall be transmitted to the board of county commissioners of the adjoining county in which a part of such road is located. Also, a copy shall be transmitted to the planning commission of such adjoining county and any regional or metropolitan planning commission in which both of such counties are located. The board of county commissioners of such adjoining county, its planning commission and any regional or metropolitan planning commission in which both counties are located may make recommendation to the board of county commissioners adopting such resolution. Adoption of a resolution under (b) shall not limit the right of the board of county commissioners of any adjoining county from proceeding under this act. The action of either of such boards of county commissioners shall apply only to that portion of such road which is in the county of the board adopting a resolution under (b).

(f) Whenever a road has been declared a minimum-maintenance road in accordance with this section and signs have been posted thereon as provided in (d), the state, the county and the townships within such county and employees of such governmental entities shall

be exempt from liability for any claim by any person under the Kansas tort claims act with respect to such minimum-maintenance roads. No such governmental entity or employee thereof shall be liable for damages arising from such roads or their maintenance or condition.

AG Opinion 2004-18 Township Board Compensation

June 29, 2004

Re: Roads and Bridges--County and Township Roads--Township Board of Highway Commissioners; Compensation

Synopsis: Township board members can be compensated for providing services to the township provided the services fall within the parameters of "township business" or are identified specifically in the statutes. However, while a township board may be authorized to appoint or employ one of its members to perform services for the township, its members must comply with all state governmental ethics laws. Jan Satterfield
Butler County Attorney
201 W. Pine, Suite 104
El Dorado, Kansas 67042

Dear Ms. Satterfield:

You inquire whether township board members can receive compensation for services provided to the township. Specifically, you indicate that there are concerns about members providing mowing and general labor services on township roads and other township property. While former Attorney General Carla J. Stovall opined on this subject in 1995, [\[FN1\]](#) the laws mentioned in that opinion have since been amended, and, therefore, its value is limited. We also note that the propriety of a township board or board member's action will depend upon the specific facts of each situation, and, therefore, we offer this opinion only for general guidance.

The governing body of a township is comprised of a township trustee, clerk, and treasurer. [\[FN2\]](#) These officers are entitled to "receive compensation for their services while actually and necessarily conducting township business." [\[FN3\]](#) In the absence of a statutory definition of "township business," or an appellate court decision limiting its scope, the governing body has discretion in determining the parameters of "township business" for which its members will be compensated. Presumably, "township business" would include the statutory duties of a township board and its individual members. [\[FN4\]](#) [K.S.A. 80-207](#) establishes the procedure for compensating township board members where the total amount of annual compensation per member exceeds \$100:

"(c) The township board, by adoption of a resolution, may fix the amount of compensation to be received by members of the board. Such resolution shall be published at least once each week for two consecutive weeks in a newspaper of general circulation within the township. If the total amount of compensation to be received annually by each member of the board is \$100 or less, such resolution shall not be required to be published and shall be effective upon adoption of the resolution. A resolution providing for an increase in compensation shall not be effective until 30 days following the date of the last publication of the resolution." [\[FN5\]](#)

In addition to board members being compensated for "township business," there are a variety of statutes that authorize board members to perform specific compensated services for the

township. The following is a brief list:

1. A township board, serving as a board of highway commissioners, [\[FN6\]](#) "may employ one or more... [board] members to perform work and labor on the township roads... and bridges." [\[FN7\]](#)
2. A township board may appoint one of its members to serve as the road overseer who is responsible for the "construction and maintenance of all township roads, bridges, and culverts, under the supervision of the township board and the county engineer." [\[FN8\]](#)
3. A township board serves as an auditing board, which examines and audits all claims against the township for which the member can receive compensation for "attending to the township business." [\[FN9\]](#)
4. Township board members can receive compensation for their services "in the supervision of the operation" of the township water system, [\[FN10\]](#) as members of the governing body of a township fire district, [\[FN11\]](#) and for services as members of the governing body of a township sewage district. [\[FN12\]](#)

Clearly, township board members can be compensated for providing services to the township provided the services fall within the parameters of "township business" or are identified in the statutes. We also note that state law contemplates the employment of township officers by virtue of K.S.A. 2003 Supp. 80-208 which provides, as follows:

"A township officer who also is an employee of the township shall abstain from voting for or participating in any motion of the township board to increase the compensation, salary, or benefits to be paid to such person as an employee of the township." [\[FN13\]](#)

However, while a township board may be authorized to appoint or employ one of its members to perform services for the township, [\[FN14\]](#) its members must comply with all state governmental ethics laws, including [K.S.A. 75-4304](#) and [75-4305](#). [K.S.A. 75-4304](#) prohibits a local governmental officer or employee from making or participating in a contract in which the officer or employee has a "substantial interest." [\[FN15\]](#) [K.S.A. 75-4305](#) requires a local governmental officer or employee to file a statement of substantial interests with the county election officer before "acting upon any matter which will affect any business in which the officer or employee has a substantial interest." [\[FN16\]](#) Therefore, depending upon the facts, the member being considered for appointment or employment should avoid participating, as a board member, in the making of any contract for that purpose, and abstain from taking any action in regard to the matter. [\[FN17\]](#)

You also query whether a board member can take "unilateral action" to perform a compensated service. This issue was addressed in Attorney General Opinion No. 81-141, which concluded that where a statute requires action by a township board, such action can be taken only by the board - not individual members. [\[FN18\]](#) Moreover, to the extent there is conflicting statutory language dealing with duties delegated to a township officer and also to the township board, the more recent statute controls. [\[FN19\]](#) The better practice may be for the township board to take formal action appointing the individual to perform the service and establishing the compensation. [\[FN20\]](#)

Finally, you inquire regarding the legal propriety of a township board member hiring a relative to perform compensated services for the township. There are no statutes prohibiting nepotism in this instance. As indicated previously, however, the better practice may be for the township board to appoint or employ individuals to perform services for the township.

Additionally, the governmental ethics laws should be consulted in determining whether a township board member is precluded from participating in a contract, as a board member, or acting on any matter involving the board member or the board member's relatives.

Sincerely,

Phill Kline

BOCC of Marshall County v. Lincoln Township-County authority to repair township roads

266 Kan. 355, 970 P.2d 54

Supreme Court of Kansas.
BOARD OF COUNTY COMMISSIONERS OF MARSHALL COUNTY, Kansas, Appellee,
v.
LINCOLN TOWNSHIP, MARSHALL COUNTY, Kansas, Appellant.
No. 80215.
Dec. 11, 1998.

County brought action against township to recover costs it expended to repair township road which was determined to be unsafe for public travel. The District Court, Marshall County, J.D. Euler, J., entered summary judgment in favor of county, awarding it \$2,030.25. Township appealed. The Supreme Court, [Lockett, J.](#), held that: (1) county had discretion to order necessary repairs when township failed to maintain its roads in good condition for travel when weather was wet or road was muddy and was entitled to reimbursement for required repairs, and (2) township's failure to budget sufficient funds to meet cost of road repair did not prohibit county from ordering repairs. Affirmed.

[Abbott, J.](#), filed a dissenting opinion, in which [McFarland, C.J.](#), and [Davis, J.](#), joined.

Repair of roads which are not safe for travel is a duty imposed by the State on townships for the purpose of "public safety," within meaning of extreme emergency need exception to prohibition against issuing no-fund warrants for purposes of Cash Basis Law. Syllabus by the Court

1. Rules of summary judgment are discussed and applied.
2. When a statute is plain and unambiguous, the court must give effect to the intention of the legislature as expressed.
3. Under [K.S.A. 68-124](#), the duty of a township is to keep its roads in "good condition for travel." Where the township neglects, refuses, or fails to comply with the statute's mandate, the board of county commissioners of the county in which the township is located may exercise its discretion to conduct road repairs and charge the township for the project.
4. Where a public official or board is vested with discretion, courts will not interfere to control that discretion in the absence of fraud, bad faith, or gross impropriety on the part of the official or board.
5. The fact that a township has failed to budget sufficient funds to meet the cost of road repair does not prohibit the board of county commissioners of the county in which the township is located from ordering township road repair or maintenance when the board finds the township road is not in good condition for travel. County repaired a township road. Township refused to pay County. County filed suit against Township to recover its costs for the road repair. The district court found County had statutory authority to repair the road and assess the cost against Township, granted summary judgment to County, and entered judgment against Township for the amount of the repairs. Township appeals, claiming Board of County Commissioners had no statutory authority to repair or order Township to repair the township road.

On October 10, 1994, seven residents of Lincoln Township, who resided along or near a township road that lies between Lincoln Township and Nemaha County, met with the Board of County Commissioners of Marshall County (Marshall County) to express their concern regarding the safety of the township road. Marshall County contacted the county road supervisor, who opined that the road was not safe for the traveling public, particularly for the school bus and the U.S. mail carrier. Marshall County sent written notification to the Lincoln Township Board of Trustees, advising the trustees that if they did not repair the road within 2 weeks, Marshall County would proceed under [K.S.A. 68-124](#) with reasonable repairs to the township road and charge the expenses to Lincoln Township.

On October 17, 1994, the Lincoln Township Board of Trustees met with Marshall County and informed the commissioners that Lincoln Township did not have sufficient funds to make the needed repairs on the road. Lincoln Township believed the road was in satisfactory condition for travel except when it was wet and muddy, and denied Marshall County's demand to repair the road.

On October 24, 1994, Marshall County delivered rock to the township road. Lincoln Township applied the rock to the road. Marshall County billed Lincoln Township \$2,030.25 for the cost of the rock, labor, equipment, and material. The amount was due on or before March 10, 1995. Lincoln Township claimed it was without funds and refused to pay the amount due.

Marshall County filed an action in district court to recover the cost of the project. The district court granted summary judgment to Marshall County against Lincoln Township in the amount of \$2,030.25. Lincoln Township appeals, claiming Marshall County had no authority under the circumstances to repair or to order the township to repair the township road.

The resolution of the question presented depends on statutory interpretation.

Interpretation of a statute is a question of law, and this court's review is unlimited.

[Hamilton v. State Farm Fire & Cas. Co.](#), 263 Kan. 875, 879, 953 P.2d 1027 (1998).

The district judge observed that the answer to the issue depends upon the interpretation of [K.S.A. 68-124](#), which provides in part:

"Where under the laws of the state of Kansas ... any road or highway that is not a county road has been declared to be a public road or highway, it shall be the duty of the board of highway commissioners of the township in which such road is located to repair, place and keep in condition for travel such roads or highway. If such board of highway commissioners shall neglect, refuse or fail to comply with the provisions of this act, the board of county commissioners of the county may repair and put in good condition for travel such road or highway, and shall charge the expenses therefor to the township in which such road is located."

The district judge noted that although the primary responsibility for the maintenance of township roads in counties that do not operate under the county unit system is placed with the township board, as provided by [K.S.A. 68-526](#) and [68-124](#), there are certain situations where the board of county commissioners has the statutory authority to intervene. The provisions of [K.S.A. 68-124](#) allow the board of county commissioners to intervene when the township board "shall neglect, refuse or fail" to place and keep the roads in good condition. The district judge observed that if the county commissioners determined the road is not in good condition for travel, the commissioners had statutory authority to put the township road in good condition and charge the expenses to the township.

The district judge noted there was a difference of opinion between Marshall County and Lincoln Township as to whether the road was safe for travel or whether repairs were necessary to put the road in good condition. Lincoln Township had concluded, based on the use of the road, history of maintenance of the road, funds available for repairs, and other factors, that the road, except when wet or muddy, was in good condition for travel. Marshall County, after considering the same factors, disagreed with Lincoln Township and concluded that the road was not safe for public travel and required repair to put it in safe condition for travel when wet or muddy.

The district court observed that Marshall County had relied upon Attorney General Opinion No. 87-22 in determining it had the authority to make repairs to the road and to charge the expenses to Lincoln Township. The Attorney General had issued the opinion on February 5, 1987, at the request of the Marshall County Counselor. Before discussing that opinion, the district judge acknowledged that opinions issued by the Attorney General's office, though not binding on the court, are persuasive. See [Moore v. City of Lawrence](#), 232 Kan. 353, 362, 654 P.2d 445 (1982); [Greenwood v. Estes, Savings & Loan Commissioner](#), 210 Kan. 655, 661, 504 P.2d 206 (1972).

In Opinion No. 87-22, the Attorney General relied upon [Stock Farm Co. v. Pottawatomie County](#), 116 Kan. 315, 226 P. 781 (1924), and determined that Marshall County had authority under [K.S.A. 68-124](#) to make repairs to a township road and to charge the township for the expenses incurred if the township board failed to make the necessary repairs to keep the road in good condition for travel. In *Stock Farm Co.* this court stated:

"Where the township highway commissioners neglect to place and keep in condition a lawfully established township road, that duty may be lawfully performed by order of the board of county commissioners or the county engineer, and the expenses therefor charged against the township as provided in R.S. 68-124, 68-546." [116 Kan. 315, Syl. ¶ 5, 226 P. 781.](#)

The district judge then noted that [K.S.A. 68-124](#) contains no statement as to what repairs may be made or how the term "good condition for travel" is to be construed or applied. The district judge pointed out that the statute vests the board of county commissioners with the authority to determine whether the township board of highway commissioners has neglected, refused, or failed to repair and place the road in good condition. The district judge concluded that the repairs needed for the road to be in good condition for travel are left to the sound judgment and discretion of the board of county commissioners.

The district judge further noted that in [Pratt v. Fall River Township Board](#), 155 Kan. 442, 445, 125 P.2d 357 (1942), the Kansas Supreme Court, in a mandamus action relating to the repair and

maintenance of a township road, stated: "Where a public official or board is vested with discretion courts will not interfere to control that discretion in the absence of fraud, bad faith or gross impropriety on the part of the official. [Citations omitted.]"

The judge then noted that Marshall County, after consideration of the use of the road as a farm-to-market road, mail route, and school bus route, had concluded the road was not always in good condition for travel and needed to be repaired. Marshall County had attempted to obtain the cooperation of Lincoln Township in making the necessary repairs. After Lincoln Township refused to make the necessary repairs, Marshall County, following [K.S.A. 68-124](#), exercised its discretion and made the necessary repairs.

As it did in the district court, Lincoln Township argues on appeal that it did not fail to act; it specifically considered the condition of the road and elected not to repair a road that was safe for public travel except when it was wet or muddy. Lincoln Township asserts that Marshall County made a political decision to repair the road, rather than a decision based on safety considerations. By acting in such a manner, Lincoln Township contends Marshall County unlawfully usurped Lincoln Township's authority and repaired a road the township had determined to be in good condition for travel under normal weather conditions. Lincoln Township also alleges that the district court considered controverted facts regarding the condition of the road and improperly ruled on the motion for summary judgment.

Summary judgment is appropriate when the pleadings, depositions, answers to interrogatories, and admissions on file, together with the affidavits, if any, show that there is no genuine issue as to any material fact and that the moving party is entitled to judgment as a matter of law. The trial court is required to resolve all facts and inferences which may reasonably be drawn from the evidence in favor of the party against whom the ruling is sought. When opposing a motion for summary judgment, an adverse party must come forward with evidence to establish a dispute as to a material fact. In order to preclude summary judgment, the facts subject to the dispute must be material to the conclusive issues in the case. On appeal we apply the same rules, and where we find reasonable minds could differ as to the conclusions drawn from the evidence, summary judgment must be denied. [Saliba v. Union Pacific R.R. Co., 264 Kan. 128, 131-32, 955 P.2d 1189 \(1998\)](#).

After reviewing the record, we find that it is unnecessary to sort through the controverted and uncontroverted facts raised by Lincoln Township to resolve the question of whether the evidence indisputably established that the township road was not always in good condition for travel. The answer is found in affidavits submitted by Lincoln Township to the district court.

Lincoln Township attached three affidavits to its memorandum in opposition to Marshall County's motion for summary judgment: an affidavit by Loren Kent Stowell, treasurer of Lincoln Township; an affidavit by August Barnes, Lincoln Township grader operator; and an affidavit by Donald Van Dorn, trustee of Lincoln Township. All three affidavits stated: "When the road was wet it could be classed as a dirt road and would not be passable for ordinary traffic or school buses." The affidavits by Loren Kent Stowell and Donald Van Dorn stated that the road "was not dangerous and was passable to ordinary traffic at all times *except when it was muddy*." (Emphasis added.)

Lincoln Township's affidavits admit that the township road was not in good condition for travel when the weather was wet and the road was muddy. Each affidavit explained

that alternate passable roads were utilized by the school bus and the mail carrier during wet weather, *i.e.*, alternate routes were necessary because the township road was not in condition for travel during those times. The Lincoln Township affidavits clearly establish that the township road was not always in good condition for travel. In addition, the county road supervisor determined the road was not safe for the traveling public. When a statute is plain and unambiguous, the court must give effect to the intention of the legislature as expressed. *In re Marriage of Killman*, 264 Kan. 33, 42-43, 955 P.2d 1228 (1998). Under [K.S.A. 68-124](#), the duty of a township is to keep its roads in "good condition for travel." Where the township neglects, refuses, or fails to comply with the statute's mandate, the board of county commissioners of the county in which the township is located may exercise its discretion, conduct road repairs, and charge the township for the cost of the project. [K.S.A. 68-124](#).

[K.S.A. 68-124](#) is unambiguous. Lincoln Township had a duty to maintain its roads in good condition for travel, and Marshall County had discretion to order necessary repairs when Lincoln Township failed to do so. Marshall County determined that Lincoln Township had failed in its duty to keep the road in good condition for travel when the weather was wet or the road was muddy. Marshall County, as authorized by statute, exercised its discretion and made the determination that under the circumstances the road should be in good condition for travel in wet weather. Consequently, it made necessary repairs to the road and charged the expenses to the township.

Marshall County did not act fraudulently, in bad faith, or with gross impropriety; it clearly acted within the bounds of its discretion in ordering the repair of the road. The district court did not err in granting summary judgment in favor of Marshall County.

Cash Basis Law

The affidavit of Donald Van Dorn, trustee of Lincoln Township, states that there were not sufficient funds in the township budget to pay for the road repair. Lincoln Township argues that Marshall County cannot create a debt or obligation for Lincoln Township which Lincoln Township could not lawfully create. Lincoln Township asserts that Marshall County's expenditure for the township's road repair was unlawful because the township was prohibited by the Kansas Cash Basis Law, [K.S.A. 10-1101 et seq.](#), from expending funds or creating an indebtedness in excess of the amount of funds actually on hand or in excess of the amount it had budgeted.

The district judge observed that in Lincoln Township's response and opposition to Marshall County's motion for summary judgment, Lincoln Township asserted a defense that it did not have sufficient funds to pay for the cost of the repairs for the improvements to the road. That statement was originally made by Loren Stowell, Lincoln Township Treasurer to the board of county commissioners at its October 17, 1994, meeting. The judge found that the cost for the repairs was a major reason for Lincoln Township's refusal to make the repairs.

The judge observed that Lincoln Township is subject to the provisions of the Kansas Cash Basis Law. It then noted that the provisions of [K.S.A. 68-124](#) do not provide that a township's lack of adequate funds to repair a road creates a bar to the authority of the board of county commissioners to proceed with the repairs. The district court observed that lack of funds may, at least temporarily, prevent payment to the county for the repairs to a township road.

The judge noted that there are provisions under the cash basis law by which an

indebtedness in excess of funds on hand may be incurred, such as the issuance of bonds, temporary notes, or no fund warrants, as permitted by [K.S.A. 10-1116](#). The judge concluded the fact Lincoln Township did not have adequate cash funds available to make repairs to the road did not justify or excuse it from making arrangements for the repair of the road or attempting to work out some arrangement with Marshall County for payment of the expenses incurred for the repairs.

Whether the cash basis law constitutes a defense against Marshall County's claim requires this court to review the applicable statutes. There are exceptions to the cash basis law. [K.S.A. 79-2938](#) allows expenditures for expenses in excess of a governing body's budget through the use of no-fund warrants. No-fund warrants may be issued where, "because of unforeseen circumstances the revenues of the current budget year for any fund are insufficient to finance the adopted budget of expenditures for such fund for the current budget year." [K.S.A. 79-2938](#). The budget must already include the expenditures before issuance of no-fund warrants may be approved. If the township must spend more than the amount originally budgeted through the use of no-fund warrants, the township must amend its budget pursuant to [K.S.A. 79-2929a](#).

No-fund warrants will not be authorized by the State Board of Tax Appeals except upon a finding of extreme emergency need. [K.S.A. 79-5031](#). "The term 'extreme emergency need' shall include, but not be limited to, amounts required to comply with state or federal requirements in such areas as ... public health and safety." [K.S.A. 79-5030](#). Clearly, the repair of roads which are not safe for travel is a duty imposed by the State on townships for the purpose of public safety.

Lincoln Township may not use the cash basis law to opt out of complying with statutorily imposed duties. Lincoln Township has not demonstrated to this court that incurring the financial obligation associated with repairing the township road pursuant to [K.S.A. 68-124](#) is unlawful.

[ABBOTT](#), J., dissenting:

The trial court granted summary judgment in this case. I believe that to be error. I am also troubled by the fact it appears to me we have imposed a duty concerning unimproved roads in Kansas where no duty previously existed. This may have far-reaching effects, not only on townships but on counties, to improve the many miles of unimproved roads in Kansas, as well as potential tort liability.

First, I believe summary judgment was premature. A real question exists as to whether the Board of County Commissioners of Marshall County (Marshall County) repaired and put the road in good condition for travel. When the record is examined, as we must view it, in the light most favorable to Lincoln Township, Marshall County "dumped" 257 tons of rock on a 1 1/2-mile stretch of road. Marshall County does not appear to have spread the rock. Thus, a question remains as to whether Marshall County improved the road for travel.

My main concern is that there has been no duty in Kansas to make unimproved roads passable during a wet period. Lincoln Township has 18 miles of gravel road and 22 miles of unimproved dirt roads. Statewide, there are over 5,000 miles of unimproved dirt roads. I would not hazard a guess as to how many low-water crossings exist in Kansas. Since statehood, persons using low-water crossings and unimproved dirt roads have been inconvenienced by having to take the "long way" home when the creek rose or the road

was muddy. Now we say one political group can make improvements, but order another political group to pay the cost of such improvements if the road becomes unusable when it is muddy.

I recognize that Marshall County relied on the fact that the road was used as a farm-to-market road and was used by school busses and by a rural mail carrier. [K.S.A. 68-1701](#) provides that the board of county commissioners may designate roads used for such purposes and receive federal funds for their improvements. Obviously, Marshall County did not consider this road of sufficient importance as a farm-to-market road, school bus route, and rural mail carrier route to include it under [K.S.A. 68-1701](#), but it relies on those three factors to impose a cost on the Township.

Interestingly enough, this court has held that "[w]hile a county is required to improve a county road, it is not required to surface it with gravel." [Neosho County Comm'rs v. Burdick, 120 Kan. 698, Syl. ¶ 1, 244 P. 866 \(1926\)](#). The amount of maintenance on a road has always been discretionary with the county commissioners and should be with the township board. Marshall County has the ability to take over the maintenance of all roads in the county or, under [K.S.A. 68-1701](#), it could take over this specific 1 1/2 miles of roadway if it deems it important enough a farm-to-market road, school bus route, or rural mail carrier route. When the legislature adopted [K.S.A. 68-124](#), I do not believe that it ever intended to allow a board of county commissioners to cause an unimproved dirt road to be graveled at a township's expense solely because the road succumbs to nature and becomes muddy when it rains.

I am concerned that we may be imposing tort liability on counties and townships for failure to gravel unimproved dirt roads. This is because by allowing an exception to the cash basis law, we are saying muddy roads are unsafe. The cash basis law allows an exception for unsafe emergency situations. Muddy roads are not necessarily dangerous roads. They may be irritating and inconvenient, but they do not create an unsafe emergency situation.

I would emphasize that we are dealing with what appears to be a normal, ordinary, dirt road which gets muddy when it rains. The granting of summary judgment in this case is declaring that as a matter of law, the county commissioners in any county that have a township road system can gravel any township road and force the township to pay for it solely because it gets muddy when it rains.

I would reverse the trial court.

Whenever the board of county commissioners of any county shall have adopted a resolution providing for the disorganization of any township under the provisions of this act and attachment of the territory thereof to another township or townships and the time for the filing of a petition in opposition thereto has expired, without the filing of a valid and sufficient petition in opposition thereto, prior to the date fixed by law for the filing of nomination papers by candidates for township offices, or prior to the date fixed for the holding of primary and general elections for the election of township officers, but the effective date for the disorganization of such township and the attachment of the territory thereof to another township shall not become effective until the expiration of the terms of office of the officers holding such offices, any qualified elector residing within the township being disorganized may become a candidate and may be nominated and elected to an office of the township to which the territory in which he or she resides shall be attached and made a part of at the time fixed by law for the taking and holding of such office. Any qualified elector residing within the township being disorganized may vote at such primary or general election for the election of township officers of the township to which the territory in which he or she resides shall be attached and made a part of at the time fixed by law for the taking of office by officers elected at such primary or general election.

80-1117. Disorganization and consolidation of townships with no residents; procedure; transfer of assets and debts.

(a) If any township has no residents, as certified by the county clerk of the county in which such township is located, the board of county commissioners, by resolution, shall disorganize the township or consolidate the township with the next geographically closest township, within such county, having a functioning township board. Prior to the adoption of such resolution, the board of county commissioners shall conduct a public hearing on the advisability of adopting such resolution. Until such time as the disorganization or consolidation is completed, the board of county commissioners may exercise all of the statutory powers of the township board deemed necessary and advisable by such board of county commissioners.

(b) All books, papers, records, moneys and other assets belonging to any township proposed to be disorganized or consolidated under subsection (a) shall be delivered by the persons in possession thereof to the board of county commissioners. The board of county commissioners may dispose of any assets of such township in the manner provided by this section. If at the time of its disorganization or consolidation, the townships have any outstanding indebtedness, the board of county commissioners shall place any moneys together with the proceeds of any assets of such township into a special fund that shall be used for the purpose of paying such indebtedness. Moneys and assets in excess of that required for the payment of outstanding indebtedness either shall be transferred to the township with which the disorganized township is consolidated or, if the township is disorganized, such moneys shall be credited to the county general fund.

80-1118. Disorganization of certain townships by county commission; attachment of territory to other township; procedure, hearing, protest petition; election.

From and after July 1, 2008: (a) The board of county commissioners may disorganize any township if any of the following apply:

- (1) The number of residents in the township shall become less than 200;

- (3) the township fails to file an annual budget for two consecutive years.

The territory of any township disorganized under this section shall be attached to one or more townships which are contiguous to such township.

(b) The board of county commissioners desiring to disorganize a township under this section shall adopt a resolution stating the county is considering the disorganization of such township. The resolution shall:

(1) Give notice that a public hearing will be held to consider the disorganization and fix the date, hour and place of the public hearing. Unless the board determines adequate facilities are not available, the public hearing shall be held at a site located within such township. The site and time of the hearing shall be held at a location and time determined to be the most convenient for the greatest number of interested persons.

(2) A copy of the resolution providing for the public hearing shall be published in a newspaper of general circulation of the township.

(c) Following the public hearing the board may pass a resolution disorganizing the township and attaching the territory to one or more adjacent townships. The resolution shall be published once each week for two consecutive weeks in a newspaper of general circulation of the township. The resolution shall take effect 60 days after the final publication unless a petition signed by electors of such township equal in number to at least 10% of the electors who voted at the last general election is presented to the county clerk calling for an election on the issue. Such proposition may be submitted at the next general election held in such townships or at special elections called for that purpose by the board of county commissioners, and shall be submitted on a separate ballot in substantially the following form:

Proposition to consolidate _____ township

(name of township)

with _____ township(s).

(name of township or townships)

Yes No

If a majority of the votes cast in such township in such election shall be in the affirmative, it shall be the duty of the board of county commissioners of such county to disorganize such township and attach the territory to such other township or townships. The expenses of such election shall be paid by the county from the county general fund.

Appendix A – Township Duties from Kansas Advisory Council on Intergovernmental Relations

The following information was obtained from: KANSAS ADVISORY COUNCIL ON INTERGOVERNMENTAL RELATIONS TOWNSHIP STUDY PHASE I AND II FACT-FINDING SEPTEMBER 7, 2007

Township KSA Summary

This report attempts to answer the Township Study Questions: “What do the statutes require the townships to do?” and “What do the statutes authorize/allow the townships to do?”

Introduction

In “Kansas Township Government in the 1970s,” Fisher and West observed that “townships, like cities and counties, are legal creatures of the state, whose powers and privileges are subject to the will of the legislature.” (Glenn W. Fisher and Lynne Daggett West, “Kansas Government in the 1970s,” 1978, p. 40). This is certainly observable with Kansas townships. While they currently retain authority to perform various municipal functions, they have been mostly relieved of responsibility, over the past several decades, for the few governmental functions in which they were formerly involved (e.g., law enforcement, property assessment). As Fisher/West observed, this may be part of the reason for the decline in the activity level of many Kansas townships. The distinction between governmental functions as opposed to municipal functions may also be important in looking at what is required versus what is authorized/allowed in terms of township functions.

While governmental functions, on the one hand, have been generally understood to be those “exercised by local governments as agents of the state, at the direction of the state ... involve the general welfare, [and] ... are intended to be uniform ...” (Id.), municipal functions on the other hand “have been defined as those which: ‘specifically and peculiarly promote the comfort, convenience, safety and happiness of the citizens of the municipality rather than the welfare of the general public ... ’” (Id., citing *Chardkoff Junk Co. v. City of Tampa*, 102 Fla. 501, 135 So. 457, 459). They have been referred to as “service” or “optional” functions, and their provision may vary according to local needs and customs. (Id. at p. 41).

What follows is a summary of the main statutes pertaining to townships which on their face either require or authorize/allow townships and/or township officers to do various things. It should be noted that in order to gain a full understanding of what is legally required of townships, as compared to what is simply legally authorized or allowed for them to do, some additional research into current Kansas case law and Attorney General opinions, at a minimum, interpreting the current statutes should be undertaken by a qualified legal intern or attorney.

Detail of Required Services and Activities

The vast majority of statutes addressing township functions authorize certain services to be performed by the townships, and authorize them to issue bonds and levy taxes to support those functions. Several statutes require certain administrative, accounting, recordkeeping and reporting systems be followed in carrying out these functions. There are, however, some statutes which do require action on the part of townships, or at least imply that action is required. These are listed here first. The most detailed of these statutes refer to what seems to be the townships' main functions today, those of road maintenance and noxious weed control.

Road Maintenance

KSA 68-526 states that in non-county-unit counties, the township boards "shall have the general charge and supervision of all township roads and township culverts in their respective townships. The board shall procure machinery, implements, tools, drain tile, stone, gravel and any other material or equipment required, for the construction or repair of such roads and culverts. All work shall be done in accordance with plans and specifications and the general regulations to be prepared and furnished by the county engineer." It is important to note that there is a fair amount of oversight by the county engineer in road matters, as references to the approval of or provision of guidance by that office appear throughout this chapter.

The wording of 68-526 at least implies that road maintenance is a required township function for those counties on the township-unit road system and there are several specific duties delineated in the statutes. For example, the township trustee, clerk and treasurer "shall constitute" the board of highway commissioners (68-523), and they "shall hold regular meetings" (quarterly-months are specified) (68-524), "shall keep an accurate record of all official acts..." (68-525), and "shall receive compensation" for their services in this capacity (68-525). They also "shall appoint, on merits only..." a road overseer,

with the approval of the county engineer (68-530) who may or may not have assistants. The road overseer is further required to submit itemized monthly reports of all labor and materials used to the township board (68-538); the township clerk, in turn, is required to submit an annual report to the county engineer of all road work done (68-539). For larger townships, KSA 68-117a requires that townships with populations of 10,000 or more, which are outside the limits of any city or town, needing to improve roads do so by petition to the board of county commissioners, by at least 50% of landowners of the property abutting the proposed improvement, and requires owner(s) to post bond.

Noxious Weed Control

KSA 2-1314 requires townships to control noxious weeds -- "It shall be the duty of ... the township boards ... to control the spread of and to eradicate all weeds declared by legislative action to be noxious on all lands owned or supervised by them ...". The duty is imposed upon whoever or whatever entity is in control of the land so infested, so in the case of land under the control of a township, it would be required to perform this function. KSA 2-1318 also requires the township to levy a tax for this purpose based on information received from the county weed supervisor.

Care of Abandoned Cemeteries

KSA 80-916 requires townships to care for abandoned cemeteries, and cut weeds and grass in them at least twice a year. A spending restriction is imposed by the statute: "...such township board shall appropriate and expend not more than \$500 per year for each such cemetery."

Issuance of Bonds and Levying of Taxes

In some instances the language of the statutes require townships to issue bonds and/or levy taxes in support of services provided by the township, particularly services that are required of the township, such as those just discussed. Some examples of required tax levies or bond issues are:

KSA 2-1318 (townships shall levy taxes for control of noxious weeds)

KSA 68-131 (townships shall levy a tax to pay for sidewalks when sidewalk construction is approved by residents)

KSA 80-903, 80-907 (townships shall levy a tax to pay interest on bonds issued under KSA 80-902 & 80-906 for acquisition of parks and cemeteries)

Miscellaneous

KSA 8-1,134 requires all township vehicles to be permanently registered, and requires townships to make an annual report to the division of vehicles identifying such vehicles.

KSA 9-1401 requires township boards to designate depositories, within the same county as the township as long as adequate security can be obtained, in which to deposit all funds coming into township possession. There are specific requirements as to securities for public funds as well. (9-1402, 9-1405)

KSA 25-203 requires primary elections, including township elections, be held on the first Tuesday of August in even numbered years. KSA 25-1601 requires general elections, including township general elections, be held on the Tuesday following the first Monday in November, in even numbered years.

Detail of Authorized or Allowed Functions and Activities

In addition to the above requirements, there are many others which townships are authorized to carry out.

Issuance of Bonds and Levying of Taxes

KSA 12-1,101 (townships may levy a gross earnings tax)

KSA 12-11a-07 (townships may levy a tax for law enforcement created under 12-11a-06)

KSA 10-201, 10-202 (townships may issue bonds to build, purchase or repair bridges);

KSA 68-518c (townships may levy an annual tax for road purposes)

KSA 12-1221 (townships may issue bonds to buy land for a library site, and/or erect and equip a library building)

KSA 80-902, 80-906 (townships may issue bonds to pay for acquisition of parks and cemeteries);

KSA 80-937 (certain townships may issue bonds for restoration of township lake)

KSA 65-6113 (townships may levy taxes to pay for the establishment, operation and maintenance of emergency medical and/or ambulance services)

KSA 80-1903 (townships may levy tax to pay for fire and rescue);

KSA 80-1909 (townships may issue bonds to pay for purchase of land/buildings, construction of buildings, purchase of equipment, for fire/rescue-with voter approval);

KSA 80-104 (authorizes townships to issue bonds for township land, buildings);

KSA 80-107 (two adjoining townships within the same county may issue joint bonds for construction of a joint township hall);

KSA 80-113 (townships may issue bonds for reconstruction/repair of township buildings and for equipment);

KSA 80-114 (townships may issue bonds for repair/remodel of condemned township hall, not to exceed \$6,000, without election -- unless protested by 30% of voters, in which case an election is required);

KSA 80-115 (townships may levy annual tax for special fund for acquiring, repairing, equipping and maintaining township hall)

KSA 80-1806 (urban class townships may levy taxes to pay township's share of registration and election expenses to reimburse the county)

KSA 80-2002 (sewage districts established by townships with public water supply may levy taxes and special assessments and issue bonds)

KSA 80-2201, 80-2204 (certain townships may levy taxes and/or issue bonds to pay for land or equipment for disposal of trash)

Administrative Matters

KSA 12-1675 authorizes townships to invest public funds which are “not immediately required for the purposes for which the moneys were collected or received” (“idle funds”), but places restrictions on types of investment vehicles which may be used and requires that all such funds be secured.

KSA 75-1125 authorizes any township not required to have an annual audit to hire licensed municipal public accountants or CPAs to conduct an audit, and imposes a duty upon the township to do so upon petition of at least 20% of the voters.

Townships may form interlocal agreements under the Interlocal Cooperation Act (KSA 12-2901 - 12-2910). If such agreements are formed, there are certain required components to the agreements, and any such agreements are required to be approved by the Attorney General.

Township boards, their boards of county commissioners, and/or their residents may take various actions to begin the process of consolidation, reorganization, or disorganization. These provisions are found in KSA 80-1101 – 80-1117. Some of note:

- Townships with populations of less than 200 may be disorganized by their county board of commissioners unless opposed by a majority of voters (80-1101);
- Townships in counties with populations of less than 3000 with no township indebtedness may be abolished and new townships created (80-1105);
- Two or more townships within the same state representative district may consolidate (80-1109);
- Townships in counties on the county-unit road system may be disorganized (80-1110, 80-1111);
- For townships with no residents, the board of county commissioners may either disorganize the township or consolidate it with the geographically closest functioning township within the same county (80-1117).

In addition, KSA 80-120 authorizes township boards to adopt a resolution proposing to transfer “all powers, duties and functions of the township board” to the board of county commissioners (BOCC). The resolution must then be submitted to the voters for approval, and if approved the BOCC takes over the township’s functions. There is also a provision for return of powers to the township if petitioned and subsequently approved by the voters.

Cemeteries and Parks

KSA 80-901 authorizes townships to acquire parks and cemeteries (as restricted by 80-904); two or more townships may join to acquire parks and cemeteries (80-905, as restricted by 80-906).

Cemetery Districts may be formed pursuant to certain conditions (15-1013 et seq.), and Cemetery Corporations may be formed under certain conditions (17-1342 et seq.)

Drainage and Levees

KSA 24-201 et seq. authorizes the township trustee to determine the need for construction of “ditches, drains and watercourses” and to cause them to be constructed. KSA 24-701 et seq. provides a mechanism for petition to court to allow construction on private land.

Fire Protection, Fire Districts

KSA 80-1501 et seq. authorizes townships and counties to join with another municipality in the maintenance of a fire department (statute sets out specifics regarding these types of agreements); employees may be compensated or volunteer; special clothing and equipment, as well as insurance may be provided; the governing body of a fire department created hereunder “may reorganize itself into a consolidated fire district” under KSA 12-3910.

KSA 80-1512 authorizes the creation of fire districts by townships with populations of 10,000 or more, outside the limits of an incorporated city. KSA 80-1514a creates some specific authorizations for fire districts created under 80-1512, such as acquisition of real and personal property (land, buildings, equipment), issuance of bonds, payment of employees, and exercise of eminent domain, just to name a few.

KSA 80-1540 authorizes the creation of fire districts, not only by single townships, but also by joining more than one township. The fire district may include all or part of the participating townships, and the formation of it must be approved by the voters. The governing body of the fire district is to be comprised of the township boards of the participating townships if there are four or less, or by an agreed upon number of representative(s) from the boards of each township if more than four (KSA 80-1542).

KSA 80-1541 enumerates similar powers for these types of fire districts as those set out in 80-1514a for districts created under 80-1512.

KSA 80-1544 authorizes compensation and furnishing of benefits, quarters, clothing and special equipment to employees. It also requires the auditing board to meet once a month to examine all claims, and to file an annual report with the county clerk for approval by the board of county commissioners by January 31 each year. The auditing board is to be compensated for their services.

Emergency Medical Services, Ambulance

KSA 65-6113 authorizes townships (“any municipality”) to establish, operate and maintain an emergency medical or ambulance service, and to contract for the service.

Law Enforcement

KSA 12-11a-06 authorizes certain townships and third class cities to share law enforcement departments.

Libraries, Library Districts

KSA 12-1218 et seq., 12-1236 authorizes acquisition of site for and building of library, maintenance, equipment; 12-1236 authorizes creation of library districts.

Licensing

KSA 80-1302 authorizes townships to issue licenses for pool/billiard halls, bowling alleys, roller skating rinks and dance halls.

Prairie Dog, Mole and Gopher Eradication

KSA 80-1201 et seq. authorizes townships to purchase material and employ persons to eradicate prairie dogs, moles and gophers.

Refuse Collection and Disposal

KSA 80-2201 et seq. authorizes certain townships to acquire land and equipment for disposal of trash.

Roads

KSA 68-141g authorizes the transfer of money from the road fund to a “special machinery” fund, subject to some restrictions.

KSA 80-306 authorizes township trustee to prosecute all “road laws,” and requires the county attorney to act on behalf of the township.

KSA 80-307 authorizes the trustee to remove obstructions from roadways if road overseer fails to do so, and to “call out the inhabitants” to assist in doing so.

Sewage Districts

KSA 80-2002 authorizes townships with public water supply to establish sewage districts.

Sidewalk Construction

KSA 68-131 authorizes townships to construct sidewalks upon petition of at least 51% of residents whose property abuts property where sidewalk would go.

Township Hall

KSA 80-104 authorizes township boards to acquire land for the township and erect buildings on it.

KSA 80-107 authorizes two neighboring townships to build a joint township hall with voter approval.

Detail of Additional Administrative Requirements

Within and relating to all of these required and authorized functions, there are certain administrative, recordkeeping and reporting requirements.

Open Meetings Act

KSA 75-4317, 75-4318 – As taxing subdivisions of the State, townships would be required to comply with the Open Meetings Act.

Bonds and Taxes

KSA 10-105 requires that any bonds which are issued by a township must be signed by the trustee, attested by the township clerk and countersigned by the township treasurer.

KSA 79-1801 requires townships to certify to their county clerks by August 25 of each year the amount of ad valorem tax to be levied (this is part of the budget submittal).

Accounting, Auditing, Budgeting, Reporting

KSA 10-1101, et seq. – known as the Cash Basis Law – “prohibits townships (or any other governmental unit) from creating any financial indebtedness unless the money is actually on hand, in the appropriate fund, and unencumbered by any prior commitments.” (Melody L.G. Rebenstorf, “Kansas Township Handbook,” 1995, p. 23) Several exceptions to this exist in the statutes, e.g., obligations for which money has been identified by bonds or no fund warrants (KSA 10-1116).

KSA 12-105a establishes a “uniform procedure for payment of claims and other indebtedness by municipalities” – most of the language in this act is mandatory.

KSA 75-1120 establishes a uniform system of procedures, accounting and reporting for all municipalities in the state, including a requirement for an annual audit of certain municipalities;

KSA 75-1120a requires compliance with generally accepted accounting principles (GAAP).

KSA 75-1122 defines which municipalities are required to have annual audits (gross receipts or outstanding bonds in excess of \$275k) – however, it also allows townships to be exempted from the annual audit requirement each year if their board passes a resolution requesting the exemption – the language is mandatory: “Upon receipt of the resolution, the director of accounts and reports shall waive the requirement for an audit for such year.”

KSA 79-2925 – 79-2937 – known as the Budget Law – “requires Kansas townships (as well as other municipalities or taxing units of the government) to prepare an annual budget, and prohibits non-budgeted spending.” (Rebenstorf, p. 24) This act creates the balanced budget requirement. KSA 79-2927 requires the township boards to meet no later than August 1 of each year to prepare their budgets (also contains other specifics about budget itself); KSA 79-2929 requires a public hearing on the budget, and KSA 79-2929a requires a public hearing on amended budgets. KSA 79-2934 requires the townships to adhere to fund accounting principles – funds budgeted for and allocated to one purpose may not be used for another. Each fund stands alone as its own appropriation.

KSA 80-302 designates township trustee, clerk and treasurer as the township auditing board, and requires them to meet quarterly to audit all claims; it also requires them to file their annual report with the county clerk for approval by the board of county commissioners by January 31 of each year.

KSA 80-304 requires the township trustee to provide a detailed annual report of items audited and allowed to the board of county commissioners for examination, approval and filing with the county clerk.

KSA 80-402 requires the township treasurer to keep records of receipts and disbursements by fund, and to present them together with the vouchers to the township auditing board at their October meeting; a verified copy of this report shall be filed with the county clerk.

KSA 80-405 also requires the treasurer to keep a record of receipts and disbursements, and to present an itemized statement of same to the township board at their October meeting; this report is to be examined and given to the township trustee.

KSA 80-406 requires the township trustee to make a verified statement of all bills allowed by the township each year, ending with the October meeting, and keep on file in his/her office.

KSA 80-407 requires the treasurer’s statement per KSA 80-405 and the trustee’s statement per KSA 80-406 to be posted at the polling place at the time of election of township officials.

KSA 80-410 requires the township treasurer to file a detailed financial statement with the county clerk by January 31 each year; if the budget exceeds \$25,000, s/he must also publish a summary with notice that the detailed statement is available at the county clerk’s office; s/he is also required to file a detailed statement of money paid to each member of the township board.

KSA 80-502 requires the clerk to immediately record in the township’s records and publish by posting at the usual place of holding elections a certified copy of the trustee’s annual report.

Deposit and Investment of Public Funds

KSA 12-1675 allows the investment of “idle funds,” and specifies what types of investment vehicles may be used for public moneys.

KSA 80-404 requires the township treasurer to deposit all public money he/she receives in a qualified depository (as defined here) as specified by the township board; idle funds may be invested.

Elections

KSA 25-904 requires candidates for township offices to file campaign expense reports with the county election commissioner, if their expected contributions or campaign spending will exceed \$500, within 30 days after the election.

Fire Districts

KSA 80-1514 designates the township board as the governing body of the fire district, except if “a major portion” of it lies within a city or cities and all of the territory is in one county commissioner district. In that case, the board is to be comprised of three members appointed by the county commissioner.

KSA 80-1544 requires the auditing board for the fire district to meet once a month to audit claims, and to file their annual report with the county clerk for approval by the board of county commissioners by January 31.

Interlocal Agreements

KSA 12-2904 specifies what must be included in any interlocal agreement which may be entered into by townships, and requires that all such agreements be submitted to the Attorney General for approval.

Roads

KSA 68-524 requires the township board of highway commissioners to meet quarterly, and 68-525 requires them to keep records of their “official acts.”

KSA 68-538 requires the road overseer to submit an itemized monthly report of all labor and materials used to the township board.

KSA 68-539 requires the township clerk to submit an annual report of all road maintenance expenses to the county engineer.

Cemeteries and Parks

KSA 80-913 requires townships having authority for maintenance of parks and/or cemeteries, and which have issued bonds for this purpose, to make an annual report of the condition of such parks and cemeteries and of the related expenditures/receipts.

Prairie Dogs

KSA 80-1203 requires townships engaged in prairie dog eradication to appear before the board of county commissioners in August and give an estimate of the expenses required.

Township Officials

KSA 80-202 requires township officers to live within the township, road overseers to live within the road district; when elected, officers must take the oath of office and file it with the county clerk within 20 days.

Various statutes require that township officials be paid for their services in connection with township business, for example: KSA 68-525 (township highway board shall be compensated); KSA 68-530, 68-531 (authorizes/requires compensation for road overseer and assistants); KSA 80-207 (township officers and members of the board shall be compensated and shall receive reimbursement for expenses); KSA 80-302 (auditing board shall be compensated); KSA 80-1204 (trustee and assistants shall be compensated for prairie dog eradication); KSA 80-1407 (township board members shall receive compensation for services in connection with supervision of a township water system); KSA 80-1514 (governing body of fire district is not to be compensated but is to receive reimbursement for expenses); KSA 80-1544 (governing body of fire district shall be compensated); KSA 80-2002 (governing board of sewage district shall be compensated). In most instances, the amount of compensation is to be set by the township board. In looking at these statutes, it is worth noting that very often the same people who comprise the township board (clerk, treasurer and trustee – see, e.g., KSA 80-505, 80-1525) also comprise these various specific boards and governing bodies -- per the language of the statutes in many cases (see, e.g., KSA 68-523, 80-302).

Vehicles

KSA 8-1,134 requires each township to file an annual report with the division of vehicles identifying each vehicle owned by the township.

Appendix B – Kansas Open Meeting Act

Kansas Open Meetings Act (KOMA) Michael J. Smith, Assistant Attorney General Revision date: August 2009

I. PURPOSE AND CONSTRUCTION

- A. It is the public policy of Kansas that meetings be open to the public because "a representative government is dependent upon an informed electorate. . . ." K.S.A. 2008 Supp. 75-4317.
- B. The act is interpreted liberally and exceptions narrowly construed to carry out the purpose of the law. [*Murray v. Palmgren*, 231 Kan. 524, 530 (1982); and *Memorial Hospital Ass'n, Inc. v. Knutson*, 239 Kan. 663, 669 (1986)].

II. BODIES SUBJECT TO THE KOMA

- A. Is the group subject to the KOMA?--two concurrent requirements: K.S.A. 2008 Supp. 75-4318.
 - 1. All legislative and administrative bodies, state agencies, and political and taxing subdivisions.
 - 2. Which receive or expend and are supported in whole or in part by public funds.
- B. Specific Bodies Subject to the KOMA:
 - 1. Political and Taxing Subdivisions include: cities, counties, townships (AG Opin. No. 81-288); school districts, community colleges (AG Opin. No. 81-258); watershed districts (AG Opin. No. 85-161); rural water districts (AG Opin. No. 88-97 and 89-92); drainage districts (AG Opin. No. 90-69); local historic preservation committees administering K.S.A. 75-2724 (AG Opin. No. 99-22).
 - 2. State Agencies and Boards, unless otherwise provided by statute. (AG Opin. No. 86-176).
- C. Subordinate Groups Subject to the KOMA--All subordinate groups, such as boards, commissions, authorities, councils, committees, subcommittees are covered by act if:
 - 1. The subordinate group meets funding test if the parent or controlling body meets funding test, [*State ex rel., Murray v. Palmgren*, 231 Kan. 524 (1982)], and
 - 2. Appointed by parent body to weigh options, discuss options, present recommendations or a plan of action.
 - a. It is the nature of the group, not its designation, which determines if it is subject to the KOMA. (AG Opin. No. 86-92. *See also* AG Opins. No. 80-201; 77-53; 76-140; 76-122; 73-235; 86-38).
 - 3. Examples--School District Advisory Board (AG Opin. No. 84-81); Fire District Advisory Board (AG Opin. No. 86-84); Mayor's commission subject to KOMA as it is subordinate to the city's governing body (AG

Opin. No. 88-25); appointed grievance committees, created by a city to hear employee grievances (AG Opin. No. 91-31); DUR Board under SRS (AG Opin. No. 93-41); Parental boards under Rec. Commission (AG Opin. No. 93-73); House and senate conference committees (AG Opin. No. 93-113).

- D. Joint boards subject to the KOMA if boards composed of members of different governmental bodies and:
1. Appointed by official action (AG Opin. No. 86-48); or
 2. A majority of a quorum of one or more governing bodies is present (AG Opin. No. 84-103. *See also* AG Opin. No. 91-150).
- E. Non-profit corporations may be subject to the KOMA if the non-profit:
1. Receives or expends public funds;
 2. Is subject to control of governmental unit(s); and
 3. Acts as a governmental agency in providing services or has independent authority to make governmental decisions
 - a. Nonprofit Corps Subject to KOMA: Area agencies on aging (AG Opin. No. 79-219); Economic Opportunity Foundation, Inc. (AG Opin. No. 84-10); McPherson Co. Diversified Services, Inc. (AG Opin. No. 79-284); Three Rivers, Inc. (AG Opin. No. 87-143); Cowley County Diversified Services (AG Opin. No. 87-188); HELP, Inc. (AG Opin. No. 88-27); Southwest Developmental Services, Inc. (AG Opin. No. 94-111)
 - b. Not subject to KOMA: Private nursing homes (AG Opin. No. 79-221); KU and WSU Endowment Associations (AG Opins. No. 80-239, 82-172); Planned Parenthood (AG Opin. No. 81-253); Hutchinson Cosmosphere (AG Opin. No. 82-256); Electric Cooperative (AG Opin. No. 85-175); *Memorial Hospital v. Knutson*, 239 Kan. 663 (1986); Parsons Chamber of Commerce (AG Opin. No. 89-149); K-10 Corridor Development, Inc. (AG Opin. No. 94-42); Koch Commission (AG Opin. No. 94-55); Kansas Venture Capital, Inc. (AG Opin. No. 94-107); Mid-America Commercialization, Inc. (AG Opin. No. 94-99); Consensus Estimating Group -- with staff from state agencies (AG Opin. No. 94-93); Prairie Village Economic Development Commission (AG Opin. No. 99-64), Hesston Area Senior Center (AG Opin. No. 01-02); Sheltered Living, Inc. (AG Opin. No. 2004-34); KSU Student Senate (AG Opin. 77-174)
- F. Bodies and meetings not subject to KOMA:
1. Staff meetings
 2. Judicial agencies and bodies (AG Opin. No. 82-254)
 3. Bodies exercising quasi-judicial functions -- K.S.A. 2008 Supp.75-4318(g)(1).
 - a. Quasi-judicial is defined as "a term applied to the action, discretion, etc. of public administrative officers or bodies, who are required to investigate facts, or ascertain the existence of facts, hold hearings and draw conclusions from them, as a basis for their

official action, and to exercise discretion of a judicial nature." Black's Law Dictionary 1121 (5th ed. 1979).

- b. Example: Zoning boards (AG Opin. No. 78-13), city grievance panels (AG Opin. No. 91-31); hearing panels (AG Opin. 97-40).
 - c. Only quasi-judicial deliberations may be closed--binding action must be in open meeting. (AG Opins. No. 91-31; 84-50; 79-225).
4. Any hearing held pursuant to the Kansas Administrative Procedures Act (K.S.A. 77-501 *et seq.*) are not deemed a meeting as defined in KOMA. K.S.A. 77-523(f) as amended by L. 2009, ch. 109, effective July 1, 2009.
 5. Private Organizations. Example: Private/parochial schools (AG Opin. No. 81-94); Nursing homes (AG Opin. No. 79-221).
 6. Hospital board discussions regarding risk management and peer review laws exempted from open meeting discussion. (AG Opin. No. 89-42).
 7. Meetings of legislature if house or senate rules so provide. K.S.A. 2008 Supp. 75-4318(a).
 8. Precinct committees. (AG Opin. No. 94-157).

III. MEETING--If a body is subject to the KOMA, the KOMA applies only when the body has a meeting as defined by the statutes.

- A. A Meeting is (1) any gathering or assembly, in person or through the use of a telephone or any other medium for interactive communication; (2) by a majority of the membership of an agency or body; (3) for the purpose of discussing the business or affairs of the body or agency. K.S.A. 2008 Supp. 75-4317a.
- B. Gathering or Assembly, in Person or Through the Use of a Telephone or other Medium for Interactive Communication
 1. This portion of the definition was altered slightly in 2008 as part of a compromise between the Kansas Press Association, the League of Kansas Municipalities and the Kansas Association of Counties. According to testimony offered, the above language clarified interactive communication.
 2. Prearrangement was required prior to 1994, and the statute did not mention telephone calls. In *State v. Seward Co.*, 254 Kan. 446 (1994), the Kansas Supreme Court held that phone calls between a majority of a quorum of county commissioners discussing business was not subject to the KOMA because the calls were not prearranged and the members were not in each other's physical presence. The legislature reacted to this case by deleting the requirement of prearrangement and adding to the definition "telephone call or any other means of interactive communication." The 2008 Legislature further amended this phrase as follows: "telephone call or any other means of *medium for* interactive communication."
 3. A public body subject to the KOMA may legally conduct meetings by telephone, if it does so in compliance with all of the requirements of the KOMA. Regardless whether a meeting is to be conducted telephonically, in person, by video-conference, or even through third parties, the requirements of the KOMA remain applicable; (AG Opin. No. 2005-03).

4. Informal discussions before, after, or during recesses of a public meeting are held to be subject to the act. [*Coggins v. Public Employee Relations Board*, 2 Kan. App. 2d 416, 423, *rev. denied* 225 Kan. 843 (1978)].
 5. Title of the gathering--*e.g.* work sessions-- is irrelevant if the three requirements of a meeting are met. (AG Opins. No. 80-197; 90-47).
 6. Serial communications is defined as "interactive communications in a series shall be open if they collectively involve a majority of the membership of the body or agency, share a common topic of discussion concerning the business or affairs of the body or agency, and are intended by any or all of the participants to reach agreement on a matter that would require binding action to be taken by the body or agency." K.S.A. 2008 Supp. 75-4318(f). (For a discussion of the prior language concerning serial meetings, *see* AG Opins. No. 98-26, 98-49. *See also* AG Opin. No. 95-13).
- C. Majority of the Membership of the Body
1. "A majority" means the next whole number greater than one-half the total number of members. (AG Opin. Nos. 83-174; 86-110; 87-45; 87-132; 87-152; 93-140 and 2002-41).
 2. A county commission may by Home Rule powers raise its quorum to a number greater than a majority of its members. [*State ex rel. Stephan v. Board of Sedgwick County Comm'rs*, 244 Kan. 536 (1989)]. Cities also have home rule authority to increase their quorum by charter ordinance. (*See* AG Opins. No. 87-45, 83-74). Bodies without home rule authority cannot alter common law rules determining a quorum and may not alter it without specific authority. [*See also* AG Opins. No. 83-174 (change by Airport Authority not authorized); 93-140 (change by Rec. Comm. not authorized); 96-32 (change by state Dental Board not authorized)].
- D. For the Purpose of Discussing the Business or Affairs of the Body.
1. Binding action or voting is not necessary; discussion is what triggers KOMA. (AG Opin. No. 79-200).
 2. "Meeting" includes all gatherings at all stages of the decision-making process. (*Coggins v. Public Employees Relations Board*, 2 Kan.App.2d at 423).
 3. Social gatherings are not necessarily subject to the KOMA; if there is no discussion of the business of the body, one element of a meeting is "missing."
 4. Retreats and meetings held in private clubs are probably prohibited, especially if site makes it impossible for public to attend without cost. (AG Opins. No. 82-133; 80-148).
 5. Members attending a conference where items of general interest are discussed (such as convention of League of Municipalities) are not in violation of the KOMA, as long as the specific business of a body is not discussed. (AG Opin. No. 82-133).
 6. Marriage between two members of a five member city council of a third class city does not violate the KOMA, but they should not discuss city business outside open meeting. (Discussing the former definition of a meeting which required majority of a quorum AG Opin. No. 87-45).

IV. NOTICE OF MEETINGS--K.S.A. 75-4318

- A. Notice of meetings must be requested before the public body is required to provide it. K.S.A. 2008 Supp. 75-4318
1. Notice must be given to any person or organization requesting it. (AG Opin. No. 86-133). Residence of the requestor is irrelevant. (AG Opin. No. 81-137).
 2. Notice request expires at the end of fiscal year; request must be renewed. Must first notify of expiration before terminating notice. K.S.A. 2008 Supp. 75-4318(b)(3).
 3. Presiding officer has duty to provide notice, but that duty may be delegated.
- B. Form of Request and Notice
1. Oral request is valid (but prosecution is difficult if not honored). (AG Opins. No. 81-15; 81-22; 86-133).
 2. Notice given can be written or oral, but must be made individually to the person requesting it. Posting or publication in newspaper is insufficient.
 3. A single notice can suffice for regularly scheduled meetings. Must notify of any special meetings. (AG Opin. No. 83-173).
 4. No fee for notice can be charged. (AG Opins. No. 81-137; 82-141).
 5. Petitions for notice may be submitted by groups of people, but notice need only be provided to one person on the list. K.S.A. 2008 Supp. 75-4318(b)(1). (AG Opin. No. 86-133).
 6. No time limit is imposed for receipt of notice prior to meeting. Notice must be given in a "reasonable time," reasonableness depending on the circumstances. (AG Opin. No. 81-15).
 7. Contrary to popular belief, the KOMA does not require notice of meetings to be published in a paper.
 8. To establish a violation for failure to provide notice of a meeting there must have been a prior request for notice. A pattern of providing courtesy notice does not create a duty to provide it.
 9. A body cannot opt out of KOMA's requirements.
- C. Agendas
1. The KOMA does not require that an agenda be created.
 - a. If a body chooses to create an agenda, that agenda should include topics planned for discussion. [Stevens v. City of Hutchinson, 11 Kan.App.2d 290, 293 (1986)].
 - b. Agenda may be amended. [U.S.D. 407 v. Fisk, 232 Kan. 820 (1983)].
 2. If agendas exist, copies must be made available to those who request them. The agenda does not have to be mailed out and can simply be provided by placing the agendas in a public place. K.S.A. 20087 Supp. 75-4318(d); (AG Opins. No. 79-218; 81-15; 86-133).
 3. Mandamus was proper remedy for board of county commissioner's alleged violations of Open Meetings Act by failing to include planned discussion topic on agenda for meeting. [Klein v. Johnson County Bd. of County Comm'rs, 77 P.3d 1009 (Kan.App. 2003) (unpublished opinion)].

D. Minutes

1. Except for recording motions for executive session, the KOMA does not require minutes. (Local bylaws, ordinances, or policies may.)

V. OPEN MEETINGS AND EXECUTIVE SESSIONS

A. Open Meetings

1. K.S.A. 2008 Supp. 75-4318 requires open meetings when a body is subject to the act.
 - a. Any person may attend open meetings. (AG Opin. No. 80-43).
 - b. The KOMA does not require that the public be allowed to speak or to have an item placed on the agenda (but check local ordinances and policies. K.S.A. 21-4101 prohibits disorderly conduct or disturbing a lawful meeting and provides for criminal prosecution).
2. Secret ballots not allowed, K.S.A. 2008 Supp. 75-4318(a). The public must be able to ascertain how each member voted. (AG Opins. No. 86-176; 79-167; 81-106; 65-167; 93-55).
3. Subject to reasonable rules, cameras and recording devices must be allowed at open meetings. K.S.A. 2008 Supp. 75-4318(e).
4. The KOMA does not dictate the location of the meeting, the size of the room, or other accommodation type considerations. The key to determining whether a meeting is "open" is whether it is accessible to the public. (AG Opins. No. 86-153; 79-253; 82-133; 80-148).
5. Telephone conference calls are allowed if the requirements of the act are met (*i.e.* notice and free access). (AG Opins. No. 81-268; 80-173; 80-159).

B. Executive Session K.S.A. 2008 Supp. 75-4319

1. Executive sessions are permitted for specified purposes, but first the body must convene an open meeting before public body can recess into executive session. K.S.A. 2008 Supp. 75-4319(a); (AG Opin. No. 81-22).
2. Binding action may not be taken in executive session. K.S.A. 2008 Supp. 75-4319(c); (AG Opin. No. 91-31). Reaching a consensus in executive session is permitted. [*O'Hair v. U.S.D. No. 300*, 15 Kan.App.2d 52 (1991)]. A "consensus," however, may constitute binding action and violate KOMA if a body fails to follow up with a formal open vote on a decision which would normally require a vote. [*City of Topeka v. Watertower Place Development Group*, 265 Kan. 148 (1998)].
3. The decision to hold executive session is discretionary; the KOMA never requires an executive session. (Other laws or policies need to be considered, however.)
4. Procedure--K.S.A. 2008 Supp. 75-4319(a) requires a specific procedure which must be followed in order to go into executive session:
 - a. Formal motion, seconded, and carried
 - b. Motion must contain statement of (1) Justification for closure; (2) Subject(s) to be discussed; and (3) Time and place open meeting will resume.

- c. Example: "Madam Chairman, I move we recess into executive session to discuss disciplinary action against a student in order to protect the privacy of the parties involved. We will reconvene the open meeting in the conference room at 8:30 p.m."
 - d. Motion for executive session should contain subject and justification statement, which are not the same thing. [AG Opins. No. 91-78; 86-33. *But see State v. U.S.D.A. 305*, 13 Kan. App.2d 117 (1988)]. The subject is one of the topics allowed for executive session listed in K.S.A.2008 Supp. 75-4319(b). The justification is an explanation of what is to be discussed (without revealing confidential information.)
 - e. Executive session motions must be recorded in minutes. K.S.A. 2008 Supp. 75-4319(a) KOMA does not require other information to be recorded. Other minutes for open or executive sessions are discretionary, unless some other law requires them. (AG Opin. No. 90-47).
5. Some of the subjects which may be discussed in an executive session:
- a. Personnel matters of non-elected personnel
 - 1. To discuss an individual, not groups. [AG Opins. No. 81-39; 88-25; 80-102. *But see* 13 Kan.App.2d 117 (1988)]. The purpose of this exception is to protect the privacy interests of individuals. Discussions of consolidation of departments or overall salary structure is not a proper topic.
 - 2. "Personnel" means employees of the public agency. (AG Opin. No. 87-10).
 - a. Personnel does not include appointments to boards or committees. (AG Opin. No. 87-10).
 - b. Personnel does not include independent contractors. (AG Opins. No. 87-169; 2002-28).
 - c. The KOMA does not give the employee a right to be present in the executive session or to force an open session. (Other laws or contracts may, however.)
 - d. This exception may be used to discuss applicants for employment. (AG Opin. No. 96-61).
 - b. Consultation with the body's attorney
 - 1. This is for attorney/client privilege so all elements of privilege must be present:
 - a. the body's attorney must be present;
 - b. the communication must be privileged, and
 - c. no other third parties may be present. (AG Opins. No. 78-303; 82-130; 82-176; 82-247; 92-56). Privileged communication is defined at K.S.A. 60-426; [*Pickering v. Hollabaugh*, 194 Kan. 804 (1965)].

2. Cannot be used to discuss letter received from attorney if the attorney is not present. (AG Opin. No. 86-162).
- c. Employer-employee negotiation
 1. Public bodies can meet in executive session to discuss conduct or status of negotiations, with or without the authorized representative who is actually doing the bargaining. (AG Opin. No. 79-125).
 2. Public bodies cannot have executive session under this exception when meeting with employees. (AG Opin. No. 80-43).
 3. School Boards--special rules: K.S.A. 72-5423(b). (AG Opin. No. 92-51).
- d. Confidential data relating to financial affairs or trade secrets of corporations, partnerships, trusts, and individual proprietorship.
 1. Economic development groups. (AG Opin. No. 88-148).
 2. Must be for data truly confidential in nature. [*See* K.S.A. 60-3320; *Southwestern Bell Telephone Co. v. KCC*, 6 Kan.App.2d 444, 457 (1980), *rev. den.* 230 Kan. 819 (1981); *All West Pet Supply v. Hill's Pet Products*, 840 F.Supp. 1433, 1437 (Kan. 1993)].
- e. Matters affecting a student, patient, or resident of public institutions
 1. Must concern a particular person (not students in general).
 2. Hearing must be open if requested by person involved.
 3. Inmates as residents of institutions (*see* AG Opin. No. 80-102).
- f. Preliminary discussions relating to acquisition of real property
 1. Acquisition only, not sale of property which must be discussed in open meeting. (AG Opin. No. 87-91).
 2. This exception can be used only when the primary focus of the discussion is real property; negotiating strategy alone is insufficient. (AG Opin. No. 89-92).
- g. Security, if open discussion would jeopardize security, K.S.A. 2008 Supp. 75-4319(13); any confidential records concerning security discussed in executive session are exempt from subpoena, discovery or other action.
6. Who can be present in an executive session—only the members of a public body have the right to attend executive session. (AG Opin. No. 86-14).
 - a. Mere observers may not attend. Inclusion of general observers means the meeting should be open to all members of the public. (AG Opins. No. 82-176; 86-143; 92-56).
 - b. Persons who aid the body in its discussions may be discretionarily admitted. (AG Opin. No. 91-31).
 - c. Johnson County school district; members of advisory boards have no right to attend. (AG Opin. No. 86-143).

- d. County clerk has no right to attend executive sessions. (AG Opin. No. 87-170).
- e. Non-clients cannot attend executive sessions for attorney-client privileged communication. (AG Opin. No. 82-247).

VI. ENFORCEMENT OF THE KOMA

- A. K.S.A. 2008 Supp. 75-4320 - civil, not criminal, penalties
 - 1. Fines - up to \$500 for each violation as determined by the district court - but only if action brought by attorney general or county or district attorney.
 - a. Statute appears to mean that this is \$500 per body member against the member individually.
 - b. Courts generally do not award significant fines.
 - c. No fine may be imposed for violation for serial communications that occur prior to July 1, 2009. (Senate Substitute for House Bill 2947).
 - 2. Voiding action
 - a. Binding action taken at a meeting not in "substantial compliance" with KOMA may be voided by court.
 - b. Action must be brought by county/district attorney or the attorney general. [*Stoldt v. City of Toronto*, 234 Kan. 957 (1984)].
 - c. Action to void must be filed within 21 days of the alleged violation/meeting.
 - 3. Injunction, mandamus, declaratory judgment: Can be brought by any person or by Attorney General or District/County Attorney. (*Stoldt*, 234 Kan. at 963).
 - 4. Injunctive relief, rather than mandamus, is proper remedy to address board of county commissioners' past violations of Open Meetings Act. K.S.A. 60-8016. [*Klein v. Johnson County Bd. Of County Comm'rs*, 77 P.3d 1009 (Kan.App. 2003) (unpublished case)].
 - 5. Under the KOMA, a private citizen has the authority to seek injunctive and mandamus relief but no authority to ask the court to void a contract. [*Krider v. Board of Trustees of Coffeyville Community College*, 277 Kan. 244, 83 P.3d 177 (2004). *See also Mid-Continent Specialists, Inc. v. Capital Homes, L.C.*, 106 P.3d 483, 279 Kan. 178 (2005)].
 - 6. Technical violations. The court will not void any action and will overlook technical violations of the law if the spirit of the law has been met, there has been a good-faith effort to comply, there was substantial compliance with the KOMA, no one was prejudiced, and the public's right to know had not been effectively denied. (*Stevens v. Board of Reno County Comm'rs*, 10 Kan.App.2d at 526).
- B. Procedure
 - 1. County/district attorney and attorney general have concurrent jurisdiction to investigate or bring an action. K.S.A. 2008 Supp. 75-4320.

- a. Policy of attorney general's office to first refer an alleged violation to the county/district attorney, the local law enforcement officer for the state. The decision to investigate or prosecute is discretionary on the part of the prosecutor. K.S.A. 2008 Supp. 75-753 requires county and district attorneys to give the Attorney General a yearly report on KOMA/KORA complaints it received or handled in the past year.
 - b. County/district attorney and attorney general can issue investigative subpoenas. K.S.A. 2008 Supp. 75-4320b.
 - c. If an individual wishes to bring a possible KOMA violation to the Attorney General's attention, the Attorney General's office traditionally asks that a complaint be submitted in writing, with as much supporting documentation (*i.e.* minutes) as possible.
2. Burden of Proof: Plaintiff has the initial burden to show a prima facie case. Burden then shifts to the defendant to justify its actions. K.S.A. 75-4320a(b).
 3. Plaintiff may receive court costs if violation established. Defendant may receive costs only if action was frivolous. K.S.A. 75-4320a(c) and (d).
 4. No requirement of specific intent to violate the law. "Knowing" violation occurs when there is purposeful commission of the prohibited acts. (*Palmgren*, 231 Kan. at 536-37).
 5. Venue is proper in the county where the action occurred. K.S.A. 75-4320a(a)
 6. Courts are to give KOMA cases precedence. K.S.A. 75-4320a(e)
- C. Other Consequences
1. Violation of the KOMA can be grounds for ouster from office pursuant to K.S.A. 60-1205; (AG Opin. No. 80-168). This is a separate action which must be filed by a public prosecutor.
 2. Alleged violation of the KOMA can be grounds for recall. [*Unger v. Horn*, 240 Kan. 740 (1987); K.S.A. 25-4301 *et seq.* But *see* K.S.A. 25-4302 grounds for recall; 2003 Amendment calls into question whether *Unger Rule* has been legislatively changed].
 3. Ouster or recall not automatic - these actions must be pursued **separately**.

Appendix C – Kansas Open Records Act

Kansas Open Records Act (KORA) Michael J. Smith, Assistant Attorney General Revision date: August 2009

I. PURPOSE OF KORA

- A. It is the public policy of Kansas that "public records shall be open for inspection by any person unless otherwise provided, and this act shall be liberally construed and applied to promote such policy." K.S.A. 45-216(a). *See also Cypress Media, Inc. v. City of Overland Park*, 268 Kan. 407, Syl. ¶ 3 (2000).
- B. "The burden of proving an exemption from disclosure is on the agency not disclosing the information." *State Dept. of SRS v. Public Employee Relations Board*, 249 Kan. 163, 170 (1991). K.S.A. 45-218.

II. RECORDS SUBJECT TO KORA

- A. The Act applies to public records (not to private records): Public records are defined as "any recorded information, regardless of form or characteristics, which is made, maintained or kept by or is in the possession of any public agency. . . ." K.S.A. 2008 Supp. 45-217(g). *Harris Ent. v. Moore*, 241 Kan. 59, 63 (1987); public agency is defined at K.S.A 2008 Supp. 45-217(f). A.G. Opin. No. 90-14 (record in possession of public agency).
 - 1. The KORA covers more than just paper copies or written information.
 - a. Any recorded information regardless of form or characteristics" means that "public records are not restricted to written records." *Burroughs v. Thomas*, 23 Kan.App.2d 769, Syl. ¶ 1 (1997). This case held that autopsy photos are public records.
 - b. Computer data is a "record." *State ex rel. Stephan v. Harder*, 230 Kan. 573, 582 (1982) (considering prior records statute). A.G. Opins. No. 87-137, 88-152, 89-106, and 94-104.
 - c. Disclosure of Kansas Offender Registration Act information on the internet is allowed under Kansas statutes. *State v. Stevens*, 26 Kan.App.2d 606 (1999).
 - 2. Records not yet in existence are not subject to KORA; a prospective or standing request for "records as they become available" is not enforceable. A.G. Opin. No. 98-51.
 - 3. The KORA does not require that a record be created in order to respond to requests or in order to answer questions asking for "information." *But see* K.S.A. 2008 Supp. 45-221(d), which requires separation of open from closed information contained in public records; this may have the practical impact of requiring creation of a new document.

III. PUBLIC AGENCIES SUBJECT TO KORA

- A. Public Agency: the state or any political or taxing subdivision, or any office, officer, or agency thereof, or any other entity, receiving or expending and supported in whole or part by public funds. K.S.A. 2008 Supp. 45-217(f).
- B. No entity is included under KORA solely because it receives public funds in exchange for goods or services. K.S.A. 2008 Supp. 45-217(f)(2)(A). However, receipt of public funds may subject the financial records of a not for profit vendor to the KORA if they fall under the provisions of K.S.A. 2008 Supp. 45-240. *See* A.G. Opin. No. 2004-34.
- C. Although most private entities are not subject to the KORA, some nonprofit corporations might be included.
 - 1. Kansas cases and opinions.
 - a. Nonprofit entities Subject to KORA:
 - 1. Nonprofit providing mental health services is subject because there is specific statutory authorization for contracts with such nonprofits and in such a capacity it is performing a traditional governmental function. A.G. Opin. No. 94-111.
 - 2. Nonprofit city hospital because authorized by statute and created by city. A.G. Opin. No. 88-61.
 - b. Nonprofit Entities Not Subject to KORA unless they:
 - 1. Meet the terms of K.S.A. 2007 Supp. 45-240, which makes the KORA applicable to financial documents of non-profit entities receiving public funds of \$350 or more a year, unless otherwise exempted.
 - a. [Exemptions: (a) those non-profits that file a financial report with some public entity or agency; (b) those nonprofits that are health care providers, (c) individual persons and (d) for profit corporations or partnerships.]
 - b. [Public funds means money received from the United States, the state of Kansas, or any taxing subdivision thereof, or any officer, board, commission or agency thereof.]
 - 2. Meet the tests that make a non-profit a public agency.
 - a. Examples of nonprofits that are not subject to the KORA:
 - i. In *Memorial Hospital Assn., Inc., v. Knutson*, 239 Kan. 663 (1986), a nonprofit operating a county hospital was determined not to be subject to the Kansas Open Meetings Act, KOMA. The association leased the hospital for \$1.00 per year and received \$228,000 from the county mill levy budgeted by the county hospital board of trustees, about 4.8% of total revenues. The

- Court described this as limited receipt of public funds.
- ii. The NCAA is not subject to KORA because member schools pay dues in exchange for services provided by the NCAA. A.G. Opin. No. 97-64.
 - iii. WSU Endowment Assn. A.G. Opin. No. 82-172 (pre KORA).
 - iv. Sheltered Living, Inc., A.G. Opin. No. 2004-34 (privately formed non-profit providing services to special population, heavily regulated, funding from various public entities; however, no direct government entity oversight or control).
2. Cases from other states generally turn on (1) the extent of public funding, (2) whether there is a specific service provided for the funds, (3) whether the entity was created by a governmental entity or statute, and (4) whether it is providing a traditionally governmental service.
- D. Judges are not defined as a "public agency" subject to the KORA. K.S.A. 2008 Supp. 45-217(f)(2)(B).
1. A judge's telephone records do not become public merely because another branch of government's data processing facilities maintains the records for the judicial branch. A.G. Opin. No. 96-77.
 2. The KORA, by its express terms, does apply to court records. The KORA allows judicial branch to make its own rules, however, by Supreme Court rule. K.S.A. 2008 Supp. 45-221(a)(1).
 3. District courts probably have authority to close some records under certain circumstances. Court records under former record act discussed at *Stephens v. Van Arsdale*, 227 Kan. 676 (1980).
- E. Records made, maintained or kept by a legislator or member of a governing body are not public records. K.S.A. 2008 Supp. 45-217(g)(2).
- F. Records owned by private persons which are not related to a governmental function are not included. K.S.A. 2008 Supp. 45-217(g)(2).
- G. Does not include "any officer or employee" if not provided with "an office which is open to the public at least 35 hours per week." K.S.A. 2008 Supp. 45-217(f)(2)(C).
1. "This exclusion applies only to the part time officials personally and not the governmental entity they serve." Frederickson, *Letting the Sunshine In*, 33 Kan. L. Rev. 205, 219-20 (Winter, 1985).
 2. Offices which do not have regular office hours are required to establish reasonable hours when persons may inspect and copy documents, but such offices may require 24 hours advance notice. K.S.A. 2008 Supp. 45-220(d). For this provision to have any meaning, the 35 hour per week exclusion of K.S.A. 2008 Supp. 45-217(f)(2)(C) must not apply to the office, but rather only to individuals, officers or employees, working in such offices.

IV. RIGHT OF PUBLIC TO INSPECT AND MAKE OR OBTAIN COPIES OF RECORDS. K.S.A. 45-219.

- A. Unless closed pursuant to specific legal authority, all records are open for inspection. K.S.A. 45-218(a).
- B. Any person may make abstracts or obtain copies of a public record. K.S.A. 45-219.
- C. If copies cannot be made in the place where the records are kept the custodian shall allow arrangements to be made for use of other copying facilities. K.S.A. 45-219(b).
- D. Members of the public cannot remove a record without written permission of the custodian. K.S.A. 45-218(a).
- E. A public agency is not required to provide copies of radio or recording tapes or discs, video tapes or films, pictures, slides, graphics, illustrations, unless the items were shown or played at a public meeting, but not if copyrighted by someone other than the public agency. K.S.A. 45-219(a). However, under K.S.A. 2008 Supp. 45-220, access to the record must be provided unless there is an exception from disclosure based upon the content or nature of the item.
- F. Computerized information can meet the definition of a public record and must be provided in the form requested if the public agency has the capability of producing it in that form. The agency is not required to acquire or design a special program to produce information in a desired form, but has discretion to allow an individual who requests such information to design or provide a computer program to obtain the information in the desired form. A.G. Opins. No. 88-152 (voter registration lists); 89-106; 87-137.
- G. Agency may prescribe reasonable fees:
 - 1. Fees for copies shall not exceed the actual cost, including the cost of staff time.
 - a. 20 cents per page charged by a school district was not unreasonable as it reflected actual costs. A.G. Opin. No. 87-4. Other jurisdictions have generally not upheld copying costs in excess of \$.25 per page.
 - b. K.S.A. 45-219(c)(5) applies to fees for access to or copies of public records of a public agency within the executive branch of the state government. Any person requesting records may appeal the reasonableness of the fees charged for providing access to or furnishing copies of such state agency records to the secretary of administration whose decision shall be final. A fee for copies of public records possessed by such a state agency which is equal to or less than \$.25 per page shall be deemed a reasonable fee.
 - c. Fees, *i.e.* staff time, for retrieval of information are contemplated by KORA since the statute provides for fees for "staff time required to make the information available." K.S.A. 45-219(c)(1). *See, Frederickson, Letting the Sunshine In, 33 Kan. L.Rev. 225-27 (Winter 1985).*

2. If records are maintained on computers, fees may include the cost of any computer services, including staff time. A.G. Opin No. 93-126. Proration of costs of computerizing is probably precluded, as such costs are normally required even without record requests.
3. When public records are repackaged in a computerized form in order to facilitate public access to the records, additional fees for computerization may be charged, so long as the basic records are available elsewhere at cost. A.G. Opin No. 95-64.
4. Fees for providing access of copies of public records are to recoup the actual costs associated with providing access or copies. Such fees are not meant to pay for costs that would be incurred by a public agency even without a record request. *E.g.* Overhead, capital improvements, utility bills, rent/building payments, etc. However, the legislature has granted specific exceptions to this rule in order to fund the cost of the development of a database. *See* K.S.A. 74-2022.
5. Fees may include the cost of staff time spent in redacting open from closed information. *Data Tree, L.L.C. v. Meek*, 279 Kan. 445 (2005).

V. PROCEDURES FOR OBTAINING ACCESS OR COPIES OF RECORDS. K.S.A. 45-220.

- A. Each public agency is to appoint a freedom of information officer to assist the public with KORA requests and disputes. K.S.A. 45-226. That officer is to provide information on KORA including a brochure stating the public's basic rights under KORA. K.S.A. 45-227.
- B. Each public agency is to adopt procedures to be followed. Use the same procedure for all requests. K.S.A. 2008 Supp. 45-220(a).
- C. Each agency must provide, upon request, office hours, name of custodian of record, fees, and procedures for obtaining records. K.S.A. 2008 Supp. 45-220(e).
- D. Members of the public can inspect during regular office hours and any established additional hours. K.S.A. 45-218(b).
- E. If the agency does not have regular office hours it shall establish reasonable hours when persons may inspect records. An agency without regular office hours may require 24 hour notice of desire to inspect. Notice shall not be required to be in writing. K.S.A. 2008 Supp. 45-220(d).
- F. The public agency may require proof of identity. K.S.A. 2008 Supp. 45-220(b).
- G. The public agency may require the request to be written, but not on a specific form. K.S.A. 2008 Supp. 45-220(b). A.G. Opinion 2009-18.
- H. The public agency may require written certification that the requester will not use names and addresses obtained from the records to solicit sales to those persons whose names are contained in the list. K.S.A. 2008 Supp. 45-220(c)(2). *See also* K.S.A. 2008 Supp. 45-230. A.G. Opinion 2009-18. Other than to ask for the name/identity of the requestor, and this certification, the public agency should not require other information from requesters before complying with the KORA request.

- I. K.S.A. 45-217 and K.S.A. 2008 Supp. 45-220 permit the official custodian to designate other persons to carry out custodial duties. A.G. Opin. No. 90-89.
- J. The public agency must respond to the request as soon as possible, but not later than the end of the third business day following the date the request was received. K.S.A. 45-218(d).
 - 1. If access is not granted immediately, the public agency must give a detailed explanation for the delay. K.S.A. 45-218(d).
 - 2. If the request is denied, a written statement of the legal grounds for the denial shall be given upon request. K.S.A. 45-218(d). Some degree of specificity is required. "The burden of establishing the applicability of an exemption from disclosure under the Kansas Open Records Act requires the party claiming the exemption to provide more than conclusory language, generalized allegations, or mere arguments of counsel. A sufficiently detailed record must be provided to show the reasons why an exemption applies to the materials requested." *Southwest Anesthesia Associates v. Southwest Medical Center*, 23 Kan.App.2d 950, Syl. ¶ 2 (1997).
- K. Access may be denied if the request places an unreasonable burden in producing the record or is intended to disrupt the agency. K.S.A. 45-218(e). CAUTION - this provision should be used only in extreme circumstances. Refusal under this section must be sustained by a preponderance of evidence.
- L. The public agency may require payment of allowed fees in advance. K.S.A. 45-218(f).

VI. PROHIBITED USES OF CERTAIN RECORDS

- A. A list of names and addresses shall not be obtained from public records for the purpose of selling or offering for sale any property or service to the persons listed. K.S.A. 2008 Supp. 45-220(c)(2), K.S.A. 2008 Supp. 45-230.
 - 1. This provision does not prohibit commercial use generally, it just applies to use of the names to sell or offer to sell property or a service to those persons/entities on the list. A.G. Opin. Nos. 98-51 and 2009-18. A group of local ministers may use lists from public records to provide information about area churches. A.G. Opin. No. 2000-35. An agency may use its own records to inform of its own services or programs. A.G. Opin. No. 2006-26.
 - 2. This provision does not prohibit use of lists of names obtained from public records to solicit the purchase of property from the persons listed. A.G. Opins. No. 96-68 (water meters); 98-55 (promissory note underlying contract for deed).
 - 3. This provision pertains to the names and addresses of businesses listed in the public records, as well as individuals. A.G. Opin. No. 87-73.
 - 4. Any person (including the records custodian) who violates this law and gives, or receives records for such purpose can be penalized with the same civil fines and penalties in K.S.A. 45-223.
 - a. The agency may require a person who requests such records to provide written certification that she or he will not use the record

- for that prohibited commercial purpose. A.G. Opin. No. 87-137; K.S.A. 2008 Supp. 45-220(c).
- b.If requestor makes this certification the custodian is relieved of liability if custodian provides records in good faith reliance on certification. A.G. Opin. No. 94-132.
- 5. Cannot circumvent this provision indirectly; a third party who obtains this information from a "requestor" violates the law if it is used for commercial purposes.
 - a.A newsletter service which provides lists of names and addresses obtained from public records for its subscribers to solicit, is the type of activity prohibited under the KORA. A.G. Opin. No. 86-1.
 - b.Use of information obtained from public records to publish land ownership maps (A.G. Opin. No. 86-39) and "ownership product" documents (A.G. Opin. No. 89-47) does not violate the law.

VII. RECORDS THAT ARE MANDATORILY CLOSED

- A. Some public records are mandatorily closed by federal law, state statute, or Supreme Court Rule. These types of public records must be closed. The record custodian has no discretion or choice about whether to provide copies or access. Examples include but are not limited to:
 - 1. Child in need of care records and reports, including certain juvenile intake and assessment reports. K.S.A. 2008 Supp. 38-2212.
 - 2. Juvenile court records if under 14 and ordered closed by judge, K.S.A. 2008 Supp. 38-2309; juvenile law enforcement records, municipal court records if under 14, K.S.A. 2008 Supp. 38-2310; victims of sex offense by juvenile, K.S.A. 2008 Supp. 38-2310; "[a]ll records, reports and information obtained as a part of the juvenile intake and assessment process for juvenile offenders shall be confidential and shall not be disclosed except as provided in this section or by rules and regulation established by the commissioner of juvenile justice." K.S.A. 2008 Supp. 38-2310.
 - 3. Individually identifiable drug abuse treatment records. K.S.A. 2008 Supp. 45-221(a)(3).
 - 4. Financial information of an identifiable taxpayer filed with the county appraiser, or any financial information of a personal nature required or requested by a public agency or officer, including a name, job description or title revealing the salary or other compensation of officers, employees or applicants for employment with a firm, corporation or agency, except a public agency. K.S.A. 2008 Supp. 45-221(b).

7. Unexecuted search or arrest warrants. K.S.A. 21-3827. Affidavits and sworn testimony given to obtain such a warrant is closed except as to the defendant or as otherwise ordered by the court, K.S.A. 22-2502(c); A.G. Opin. No. 87-100. (It is a crime to disclose an unexecuted warrant, but this does not apply to personnel of a law enforcement agency disclosing a search warrant: (1) For the purpose of encouraging the person named in the warrant to voluntarily surrender; or (2) issued in a case involving the abduction of a child unless such disclosure is specifically prohibited by the court issuing such warrant).
 8. Presentence reports. K.S.A. 21-4605(b).

 15. Income tax reports and returns. K.S.A. 2008 Supp. 79-3234(b).
 16. Racing Commission KBI background checks. K.S.A. 2008 Supp. 74-8804(o).
 17. Kansas Department of Health and Environment vital statistics - marriage, birth and death certificates. K.S.A. 2008 Supp. 65-2422d (restrictions are only on information in hands of vital statistics).
 18. Kansas Civil Rights Commission may not disclose investigation information without consent. K.S.A. 2008 Supp. 44-1005, K.A.R. 21-43-6
 19. Crime Victim Compensation Board, all records and information given to the Board is confidential. K.S.A. 74-7308(e).

 23. Reports of contagious disease. K.S.A. 65-118.
- B. There are many federal, state or court laws/rules that may protect or close certain information in public records. The record custodians possessing such records should be familiar with the laws that apply to the records in their possession. If the record custodian denies a request for access or copies, K.S.A. 45-218(d)

requires the custodian to provide a written citation to the law(s) being relied upon, if that information is requested.

VIII. RECORDS THAT MAY BE DISCRETIONARILY CLOSED--K.S.A. 45-221

- A. K.S.A. 2008 Supp. 45-221(a) lists types of public records that are not required to be disclosed. The public agency has discretion and may decide whether to make these types of records available. A.G. Opin. No. 89-107. However, the burden of showing that a record fits within an exception rests with the party intending to prevent disclosure. *Southwest Anesthesia Serv. v. Southwest Med. Ctr*, 23 Kan.App.2d 950 (1997).
- B. Some of the records which may be discretionarily closed include:
1. Personnel records, performance ratings, or individually identifiable records pertaining to employees or applicants for employment in public agencies. K.S.A. 2008 Supp. 45-221(a)(4). A.G. Opin. No. 91-127. The personnel exception is designed to protect information that is normally kept in personnel records files, such as documentation of discipline, references and resumes, ADA and FMLA issues, as well as specific personal information such as home address and social security number. K.S.A. 2008 Supp. 45-221(a)(4) lists three categories of records which may be exempt from the disclosure requirement: "personnel records, performance ratings or individually identifiable records," all of which must pertain to the public agency's employees or applicants for employment. A.G. Opin. No. 99-55.
 - a. However, the "names, positions, salaries and lengths of service" of public officers and employees must be made public. K.S.A. 2008 Supp. 45-221(a)(4); A.G. Opins. No. 88-61; 91-50 (salary deduction not open); 92-132 (pension plan part of salaries); 2000-8 (names of members appointed to states boards must be disclosed).
 - b. K.S.A. 2008 Supp. 45-221(a)(4) opens actual compensation employment contracts or employment-related contracts or agreements.
 - c. Home addresses of public employees may be closed. A.G. Opin. No. 97-52. *See also United States Department of Defense v. Federal Labor Relations Authority*, 510 U.S. 487 (1994) (disclosure of home addresses can be a clearly unwarranted invasion of personal privacy.) Employee's photos, telephone numbers and family members names may be closed. A.G. Opin. No. 2006-8.
 - d. The exemptions in K.S.A. 2008 Supp. 45-221(a)(4) and (15) do not apply to nonemployees or to independent contractors. Independent contractors are not "personnel," so records concerning them may not be closed under this exception. *Southwest Anesthesia Serv. v. Southwest Med. Ctr*, 23 Kan.App.2d 950 (1997).

- e. Most terms in employment contracts are open, except to the extent that a term contains personal or other information specifically closed by other laws. A.G. Opin. No. 99-55.
2. Letters of reference or recommendation pertaining to the character or qualification of an identifiable individual, K.S.A. 2008 Supp. 45-221(a)(6), unless the recommendation is for someone to fill an elected or appointed office.
 3. Criminal investigation records. Defined at K.S.A. 2008 Supp. 45-217(c).
 - a. While criminal investigation records may be discretionarily closed, this is the one category of records for which criteria for judicial review of the decision is established in the statute. The factors to be considered in opening the records basically weigh public interest in disclosure vs. harm of disclosure. K.S.A. 2008 Supp. 45-221(a)(10)(A)-(F). K.S.A. 2008 Supp. 45-221(a)(10) requires custodians of criminal investigation records to, upon request, identify which factor(s) in (A) - (F) are applicable to the record(s) being closed under this exception.
 - b. "Public interest" . . . means an interest in a matter affecting a right or expectancy of the community at large. Mere curiosity about the circumstances surrounding an investigation is not sufficient." *Harris Enterprises, Inc. v. Moore*, 241 Kan. 599 (1987). The legislative intent behind the criminal investigation records exception to the Kansas Open Records Act is to protect innocent persons whose names might be involved in an investigation, either as possible suspects or as informants. *Seck v. City of Overland Park*, 29 Kan. App. 2d 256 (2000).
 - c. Court records and docket sheets may not be closed as criminal investigation records. K.S.A. 2008 Supp. 45-217(c); A.G. Opin. Nos. 87-145 and 93-103.
 - d. Police blotter, roster of jail inmates and the front page of a standard offense report are required to be open to the public; mug shots and standard arrest report are not required to be open to the public. A.G. Opin. No. 87-25, 98-38. If a police department does not maintain a blotter, they are under a common law duty to disclose basic information about arrests reasonably contemporaneously with the arrest. A.G. Opin. No. 98-38. Custody time is open. A.G. Opin. No. 2002-29.
 - e. A log of breath test machine results is a criminal investigation record and not required to be open. A.G. Opin. No. 87-63.
 - f. Coroner reports are subject to disclosure unless they have been filed with the clerk of the district court and designated as a criminal investigation record. A.G. Opin. No. 86-5 and K.S.A. 22a-232. Autopsies as part of coroner's reports are open unless the coroner's report is filed as a criminal investigation record. *Burroughs v. Thomas*, 23 Kan.App.2d 769 (1997).

- g. Other records of investigations of a death may be closed even if the death turns out to be from natural causes so long as there was initially a criminal investigation. *Seck v. City of Overland Park*, 29 Kan. App. 2d 256 (2000).
4. Information which would reveal the identity of any undercover agent or any informant reporting a specific violation of law. K.S.A. 2008 Supp. 45-221(a)(5).
 5. Notes, preliminary drafts, research data in the process of analysis, memoranda or other records in which opinions are expressed or policies or actions are proposed. This exception does not apply when such records are cited or identified in a public meeting. K.S.A. 2008 Supp. 45-221(a)(20). A.G. Opin. No. 90-14. *See also*, K.S.A. 2008 Supp. 45-221(a)(21) and (22); records of public agency having legislative powers. A.G. Opin. No. 90-92.
 - a. These three provisions "are intended to protect an agency's internal pre-decisional deliberations from early disclosure." Frederickson, *Letting the Sunshine In*, 33 Kan. L.Rev. 205, 249 (Winter 1985).
 - b. Although reports prepared by a consultant for an agency are probably protected by this exception, other documents disclosed outside of government probably cannot be withheld based upon this exception. *See Dept. of the Interior v. Klamath Water Users Protective Association*, 532 U.S. 1 (2001).
 6. Library patron and circulation records which pertain to identifiable individuals. K.S.A. 2008 Supp. 45-221(a)(23). Library archive and museum materials contributed by private parties may be closed if closure was a condition of donation. K.S.A. 2008 Supp. 45-221(a)(7).
 7. Public records containing information of a personal nature when public disclosure would constitute a clearly unwarranted invasion of personal privacy. K.S.A. 2008 Supp. 45-221(a)(30). A.G. Opins. No. 92-149 (victim of sex offense); 99-55, 98-38, 87-168 (social security number). *See* K.S.A. 2008 Supp. 75-3520 about social security numbers and their release.
 - a. This is a very limited exception, and often turns upon the circumstances of each individual situation.
 - b. K.S.A. 2008 Supp. 45-217(b) defines "clearly unwarranted invasion of personal privacy" to mean "revealing information that would be highly offensive to a reasonable person including information that may pose a risk to a person or property and is not a legitimate concern to the public."
 - c. Cases from other states are not consistent, but generally employ a balancing test of public interest vs. private harm, allowing closure only when there is a demonstrable harm.
 - d. Social Security numbers, mothers' maiden names and dates of birth contained in public records held by a county register of deeds can be closed to a business information provider. *Data Tree, L.L.C. v. Meeks*, 279 Kan. 445 (2005).

- e. K.S.A. 75-451 *et seq.* allows victims of domestic violence, sexual assault, trafficking or stalking to obtain a "fake" address from the Secretary of State's office for use when responding to record requests.
- 8. Records concerning prospective location of a business or industry where no previous disclosure has been made. K.S.A. 2008 Supp. 45-221(a)(31).
- 9. Exceptions related to bids:
 - a. Specifications for competitive bidding until the specifications are approved. K.S.A. 2008 Supp. 45-221(a)(27).
 - b. Sealed bids until a bid is accepted or all rejected. K.S.A. 2008 Supp. 45-221(a)(28). *But see*, A.G. Opin. No. 2008-3 when a document is otherwise open per another statute.
- 10. Engineering and architectural estimates for public improvements. K.S.A. 2008 Supp. 45-221(a)(33). (To prevent bidders from learning agency's estimates of cost of a project.)
- 11. Financial information submitted by contractor in qualification statements. K.S.A. 2008 Supp. 45-221(a)(34). *See also* K.S.A. 2008 Supp. 45-221(c)(2) and K.S.A. 60-432, trade secrets.
- 12. Records concerning emergency or security information or procedures. K.S.A. 2008 Supp. 45-221(a)(12) and (45); also not subject to subpoena or discovery.
- 13. Military discharge papers (DD-214) received by a county register of deeds may only be released to specific parties. K.S.A. 2008 Supp. 45-221(a)(46).
- 14. Information that would reveal the location of a safe-house or shelter where persons are protected from abuse, or the name, address, location or other contact information of alleged victims of stalking, domestic violence or sexual assault. K.S.A. 2008 Supp. 45-221(a)(47) as amended by L. 2009 ch. 125.
- 15. Records which are privileged under the rules of evidence, unless the holder of the privilege consents to the disclosure. K.S.A. 2008 Supp. 45-221(a)(2). (Includes attorney client privilege. Possibly includes trade secrets, K.S.A. 60-432.)
 - a. Attorney billing records are not closed, *per se*, as either attorney client privilege or work product privilege, and therefore generally must be disclosed if in the possession of a public agency. All narrative statements in attorney billing statements are not *per se* privileged. Rather, parties claiming the privilege will have to show its application to particular narrative statements in billing records. Parties objecting to discovery on the basis of the attorney-client privilege bear the burden of establishing that the privilege applies. To carry the burden, they must describe the documents or information to be protected, state precise reasons for the objection to discovery, and provide sufficient information to enable the court to determine whether each element of the asserted privilege is satisfied. A blanket claim as to the applicability of a privilege does not satisfy the burden of proof. Some detail may be closed, but the

burden is on the public agency to justify it. *Cypress Media, Inc. v. City of Overland Park*, 268 Kan. 407 (2000).

- b. An investigation by an attorney for a client for the purpose of providing legal advice may be closed as attorney client privileged. A.G. Opin. No. 99-48.
16. Attorney work product. K.S.A. 2008 Supp. 45-221(a)(25).
17. Medical, psychiatric, psychological, alcohol or drug treatment records which pertain to identifiable individuals. K.S.A. 2008 Supp. 45-221(a)(3).
18. Investigatory records of agencies involved in civil or administrative adjudication, if disclosure would interfere with a prospective administrative adjudication or civil litigation or reveal the identity of a confidential source or undercover agent. K.S.A. 2008 Supp. 45 221(a)(11).
 - a. Documents collected or created during the course of an agency's civil investigatory file becomes open at the completion of the case unless otherwise controlled by another exception or statute. A.G. Opin. No. 97-76.
 - b. Records pertaining to an internal investigation of an agency's employee, disclosure of which would not interfere with a prospective administrative adjudication or civil litigation nor disclose the identity of a confidential informant, may nevertheless still be discretionarily closed if they fit the definition of a personnel record. A.G. Opin. No. 91-127.
 - c. Correspondence between a public agency and a private individual, other than correspondence intended to give notice of an agency action, policy or determination. K.S.A. 2008 Supp. 45-221(a)(14). A complaint to a professional licensing board may be closed, the letter in response to the complaint is open because it is a determination if there is a finding of no probable cause. A.G. Opin. No. 97-76.
19. Peer review/risk management records concerning certain health care professionals and facilities. K.S.A. 2008 Supp. 45-221(a)(35).
20. Software, except that register about what information the agency has on computer and what is available in what format. K.S.A. 2008 Supp. 45-221(a)(16).
21. Unless otherwise required by law, a taxpayer's financial information required or requested by a county appraiser to determine property value for ad valorem taxation shall not be disclosed. K.S.A. 2008 Supp. 45-221(b). A.G. Opin. No. 89-118.
22. Statistical information not descriptive of any identifiable person is subject to disclosure. K.S.A. 2008 Supp. 45-221(e).

IX. OTHER LIMITS ON CLOSURE

- A. Contractual provision attempting to close certain terms is void as against public policy, provided no other closure exemptions apply. A.G. Opin. No. 91-116; 93-55.

1. A settlement agreement cannot be closed by the parties, except to the extent that the KORA would allow closure, *i.e.*, some parts may constitute a personnel record, some might be clearly unwarranted invasion of privacy.
 2. There have been several district court cases involving agreements to close settlement agreements involving public agencies. Not only have the courts held the agreements to be open, they awarded attorneys' fees to the plaintiff in at least one case.
- B. If a public record contains material not subject to disclosure, that portion of the record must be deleted and the record made available. K.S.A. 45-220(d). *See also, Tew v. Topeka Police & Fire Civ. Serv. Comm'n*, 237 Kan. 96 (1985); *State ex rel. Stephan v. Harder*, 230 Kan. 573 (1982); K.S.A. 45-221(d).
- C. If a record is reviewed and discussed during an open meeting, a record that may ordinarily be discretionarily closed, generally becomes open. A.G. Opin. Nos. 92-132 and 95-119.

X. SUNSET OF CLOSURE EXEMPTIONS

- A. Specific closure laws must be reviewed and renewed every five years; otherwise they expire. The next expiration date is July, 2010. K.S.A. 2008 Supp. 45-229(b)-(h).

XI. ENFORCEMENT OF THE KORA

A. Investigations

1. Investigative subpoenas may be issued by the Attorney General and District/County Attorneys. K.S.A. 45-228.
2. Attorney General and County/District Attorneys will accept complaints from public. A.G. normally refers complaints against local government to the County/District Attorney.
3. Ordinarily, the Attorney General's office requests that complaints be timely made and be put in writing. This is done in order to verify facts, keep a record of the statements made, and in general assist with any investigation that becomes necessary.

B. Litigation

1. Any person, the Attorney General, or a County/District attorney, may file suit in district court.
 - a. Suit must be brought in the county where the records are located. If the records are located out of state, there is no cause of action under KORA. *Altevogt v. Youth Friends*, 29 Kan.App.2d 473 (2001). *See also Wichita Eagle v. Simms*, 50 P.3d 66, 274 Kan. 194 (2002).
2. District court may order injunction or mandamus.
3. The court "shall" award attorney fees against defendant if it finds denial of access was not in good faith or against plaintiff if the action was not in good faith. K.S.A. 2008 Supp. 45-222. Reasonable attorney fees may be

assessed, even upon appeal, as part of costs. *See Telegram Pub. Co. Inc., v. KDOT*, 275 Kan. 779 (2003).

4. Fines of up to \$500 for "each violation" against public agency if the agency "knowingly violates any of the provisions of this act or that [it] intentionally fails to furnish information as required by this act. . . ." Such cases seeking a fine may only be brought by the Attorney General, District or County Attorney. K.S.A. 45-223.
5. Such actions to be given precedence by the court.

XII. KANSAS PUBLIC RECORDS PRESERVATION ACT. K.S.A. 45-401 *et seq.*

The KORA does not speak to preservation of public records. "Nothing in this act shall be construed to require the retention of a public record nor to authorize the discard of a public record." K.S.A. 45-216(b). However, other laws may require that a public record be kept for a period of time.

- A. State agencies and counties are subject to the Preservation Act and are prohibited from destroying public records except as permitted by minimum records retention schedule as set forth by State Records Board. K.S.A. 45-403; 45-404(b).
- B. State Records Board, while technically attached to the Kansas Department of Administration, in practice functions through State Historical Society, Div. of Archives. K.S.A. 75-3501 *et seq.*
- C. The Records Board has published a Local Government Records Manual which sets forth the schedule of minimum retention periods for counties. Information, including a copy of the schedule, may be accessed at <http://www.kshs.org/government/records/localgovt/index.htm>. County commissions may petition Records Board for departures from local government general schedule. K.S.A. 45-405(c).
- D. Records Board has published State Records Retention Manual, which contains general schedule for state agencies. Information, including a copy of the schedule, may be accessed at <http://www.kshs.org/government/records/stategovt/index.htm>. State agencies are required to appoint a records officer to act as liaison to Records Board. K.A.R. 53-4-1. State agencies' records officers prepare and submit to the Records Board proposed specific retention schedules, which are approved by the Board.
- E. Electronic Records are also subject to retention. *See* www.kshs.org/government/records/electronic/index.htm
- F. Altering, destroying, defacing, removing or concealing any public record without legal authority is a class A misdemeanor. K.S.A. 21-3821.
- G. Counties, with approval of state archivist, may transfer noncurrent records to a county historical society, library, college, etc. K.S.A. 45-405(d). Any transferred records must not be of a confidential or restricted nature.
- H. Cities are not subject to the records retention board's schedule. However, the state archivist can advise on retention issues and there are statutory requirements for retention of certain city records. *See* K.S.A. 12-120.

Such motion shall be recorded in the minutes of the meeting. The meeting may not reconvene until the time stated in the motion.

Section 25. Motion to Adjourn to a Later Date and Time. If the governing body is unable to complete its agenda during the time allotted for the meeting, the meeting may be adjourned to a time and date certain to continue the regular or special meeting. Appendix E – Interlocal Cooperation

This appendix was extracted from the County Commissioners Desk Book published by the Kansas Association of Counties.

INTRODUCTION

Kansas local governments have broad legal authority to cooperate as to the performance of public functions and services. There are three general types of Kansas statutes on intergovernmental cooperation:

1. The Interlocal Cooperation Actⁱ allows two or more local units to do cooperatively or jointly that which they are commonly empowered to do.
2. The Interlocal Service Statutesⁱⁱ provide broad authority for any city or county to contract with any other city or county to perform any governmental service, activity or undertaking, which each contracting city or county is authorized to perform by law.
3. The Functional Consolidation Statuteⁱⁱⁱ gives counties, townships, cities, school districts, library districts, park districts, road districts, drainage or levee districts, sewer districts, water districts, and other taxing subdivisions created under state law, broad authority to consolidate operations, procedures and functions in the interest of efficiency and effectiveness.

The general cooperative statutes are not the only authority for interlocal cooperation; there are several specific cooperation statutes that authorize two or more governmental units to cooperate as to a certain function or service. The general highway and public works statutes promote cooperation between local and state public works and highway agencies, for instance.

INTERLOCAL COOPERATION ACT

K.S.A. 12-2901 *et. seq.* comprises the Kansas Interlocal Cooperation Act. This law essentially permits any two or more public agencies to do cooperatively or jointly that which they are commonly empowered to do. The agencies involved in the intergovernmental cooperation venture may include this state, any other state, the United States, an Indian tribe, or any private agency, as well as local units of government including counties, townships, cities, school districts and other districts. The definition is broad enough to cover any separate political or taxing subdivision of the state.

Since its enactment in 1957, the purposes specified in the statute as permissible areas of cooperation have been expanded. The present statute permits cooperation in such areas as:

1. economic development
2. public improvements
3. public utilities
4. police protection

5. public security and safety
6. emergency preparedness (including but not limited to intelligence, anti-terrorism and disaster recovery)
7. libraries
8. data processing services
9. educational services,
10. building and related inspection services
11. flood control and storm water drainage
12. weather modification
13. sewage disposal and refuse disposal
14. park and recreational programs and facilities
15. ambulance service
16. fire protection
17. the Kansas Tort Claims Act or claims for civil rights violations

These specified areas are illustrative, and not exclusive, so agreements under the statute are not limited to the above illustrations. Interlocal agreements increase the capacity and efficiency of local or smaller governmental entities by allowing them to:

1. Realize economies of scale.
2. Solve common problems through joint action.
3. Deliver governmental services that might otherwise be unavailable.
4. Reduce costs and create efficiencies

Contents of the Agreement

The requirements of an interlocal agreement are outlined in K.S.A. 12-2904. The statute requires that the agreement list the purpose of the agreement, its duration, any separate entity, joint board or administrator created by the agreement, the manner of financing, the permissible methods of terminating the agreement and disposing of the property, and any other necessary and proper matters.

Approval by the Attorney General

Written agreements entered into under this statute are to be reviewed by the attorney general to determine if they are in proper form. Agreements between two or more public agencies establishing a council or other organization of local governments for the promotion of intergovernmental cooperation need not be submitted for review by the attorney general.

Filing

An interlocal agreement must be filed with the register of deeds of each county where the public agencies are located, and also with the Kansas Secretary of State. This requirement is outlined in K.S.A. 12-2905. Failure to file the agreement as required by law does not affect the validity of the agreement.^{iv}

INTERLOCAL SERVICE STATUTES

Unlike an interlocal joint cooperation agreement where both public agencies enter into an agreement for joint responsibilities, an interlocal service contract usually allows for one public agency to perform the service for other, in return for payment.

For example, K.S.A. 12-2908 provides broad authority for any city, county or township to contract with any other city, county or township to perform any governmental service, activity or undertaking, which each contracting city, county or township is authorized to perform by law. The approval of the attorney general is not required. The contract must be authorized by the governing bodies and must set forth the purpose, powers, rights, objectives and responsibilities of the contracting parties.

Because of its broad authorization and simplicity, this act is being increasingly used when only cities and/or counties are involved in a service arrangement. When a joint public agency is needed, or where the joint or cooperative performance of a service is required, the interlocal cooperation act is used.

An interlocal services contract under this statute is not considered an interlocal agreement under K.S.A. 12-2901 *et. seq.*^v

FUNCTIONAL CONSOLIDATION STATUTE

A third statute entitled “Governmental Organization” is found at K.S.A. 12-3901 *et. seq.*, and gives counties, townships, cities, school districts, library districts, park districts, road districts, drainage or levee districts, sewer districts, water districts, fire districts, and other taxing subdivisions created under state law, broad authority to consolidate operations, procedures and functions in the interest of efficiency and effectiveness.

Consolidation under this statute occurs within a single governmental unit (“internal” consolidation), or through joint action of two or more governmental units (“external” consolidation). The governing body, or governing bodies, must first find by resolution that duplication exists and that operations, procedures or functions can be more efficiently and effectively exercised by consolidation. An office or agency is then designated to perform the consolidated function, and the time, form, and manner of implementation of the consolidation is set. Identical resolutions must be passed by each governing body when more than one governmental unit is involved in a consolidation.

Elimination of an elective office must be approved by a majority of the electors who are being served by that office. The election must be held in the county where the elective office is located, and the election must be held at the same time as an election for governor of the state of Kansas. The office cannot be eliminated until the election.^{vi} A transfer or elimination of statutory duties from an elected office is considered an elimination of the office and must be submitted to election as well.^{vii}

A county may use this statute to create a department of corrections and appoint a director of corrections to run the county jail.^{viii} A county can abolish the office of county treasurer using this statute.^{ix} A county can consolidate the register of deeds, treasurer and clerk into one non-elected office so long as the requirements of the act are met.^x
